</table>
4.3 Results of Duncan Procedure for self confidence: Comparison of Kudumbashree members and Non-beneficiaries of the project

4.4 Results of Duncan Procedure for self-esteem: Comparison of Kudumbashree members and Non-beneficiaries of the project

4.5 Results of Duncan Procedure for conscious thinking: Comparison of Kudumbashree members and Non-beneficiaries of the project

4.6 Results of Duncan Procedure for knowledge about social environment: Comparison of Kudumbashree members and Non-beneficiaries of the project

4.7 Results of Duncan Procedure for self derogation: Comparison of Kudumbashree members and Non-beneficiaries of the project

4.8 Results of Duncan Procedure for self-efficacy: Comparison of Kudumbashree members and Non-beneficiaries of the project

4.9 Results of Duncan Procedure for powerlessness: Comparison of Kudumbashree members and Non-beneficiaries of the project

4.10 Results of Duncan Procedure for normlessness: Comparison of Kudumbashree members and Non-beneficiaries of the project

4.11 Results of Duncan Procedure for isolation: Comparison of Kudumbashree members and Non-beneficiaries of the project

4.12 Results of t-test for psychological variables: Comparison of daily labours and self employed

4.13 Results of t-test for psychological variables: Comparison of ordinary members and office bearing members
4.14 ANOVA Results for the psychological variables: Comparison of groups on the basis of tenure in Kudmbashree

4.15 ANOVA Results for the psychological variables: Comparison of members in individual enterprises, group enterprises and members not in both

4.16 Results of Duncan procedure for self confidence: comparison of members in individual enterprises, group enterprises and members not in both

4.17 Results of Duncan procedure for self esteem: comparison of members in Individual enterprises, group enterprises and members not in both

4.18 Results of Duncan procedure for knowledge about social environment: Comparison of members in individual enterprises, group enterprises and members not in both

4.19 Results of Duncan procedure for self estrangement: comparison of member in individual enterprises, group enterprises and members not in both

4.20 ANOVA Results for the psychological variables: Comparison of members in different community based organizations (NHG, ADS and CDS)

4.21 ANOVA Results for the psychological variables: Comparison of different age groups

4.22 Results of Duncan procedure for knowledge about social environment: Comparison of different age groups

4.23 Results of Duncan procedure for meaninglessness: Comparison of different age groups

4.24 Results of Duncan procedure for normlessness: Comparison of different age groups
4.25 Results of ANOVA for psychological variables: Comparison of different family type

4.26 Results of Duncan procedure for self confidence: Comparison of nuclear, joint and extended families

4.27 ANOVA Results for the psychological variables: Comparison of different location of residence

4.28 ANOVA Results for the psychological variables: Comparison of different religious groups

4.29 ANOVA Results for the psychological variables: Comparison of different income groups

4.30 Coefficients of Correlations among the psychological variables

4.31 High correlations (Kudmbashree women=304)

4.32 Substantial correlations (Kudmbashree women=304)

4.33 Slight correlations (Kudmbashree women=304)

4.34 Negligible correlations (Kudmbashree women=304)
