CONTENTS

Part I

I INTRODUCTION ................................................. 1 - 6
Nature of Social Intelligence.

II THE PROBLEM ..................................................... 7 - 15
Test of social intelligence - Need - Scope for the present test.

III EARLY ATTEMPTS TO MEASURE SOCIAL INTELLIGENCE ............... 16 - 29
Historical review - General criticism about tests of social intelligence - Impact of studies of existing tests of social intelligence on the present work.

Part II

IV PLANNING .............................................................. 30 - 38
Purpose - Type - Selection of sub-tests - Sample - Item analysis - Standardisation of the test.

V TEST CONSTRUCTION ................................. 39 - 57
Selection of sub-tests - Writing the test items - Description and contents of sub-tests - Assembly of the tests.
Part III

VI CRITERION ..................................................... 58 - 75
Selection of criterion groups -
Rating on participation in
social activities - Rating on
good manners - Sociometric study.

VII ITEM ANALYSIS ......................... 76 -112
Item validity - Preliminary
tryout - Fixing the time
limit - Test administration -
Scoring - Item analysis for
internal consistency - Difficulty
levels of the items - Analysis
of the responses to different
alternatives - Item selection.

VIII FINAL RUN OF THE TEST .......... 113 -125
Sample - Size of the sample -
Final run of the test - Co-
operation and difficulties -
Scoring.

Part IV

IX STANDARDISATION ..................... 126 -154
Norms - Types of norms - Norms
for S.S.C. class pupils -
Reliability of mean, median
and standard deviation -
Nature of the distribution of
test scores - Calculation of
skewness of the distribution -
Calculation of kurtosis of the
distribution - The Chi-square
test - Graphical representation
of the test scores - Percentile
norms - Standard score norms -
Assigning letter grades -
Norms for Insurance Agents,
Salesmen and Supervisors.
X  RELIABILITY  ..........................  155 - 172
  Reliability by split-half method-
  Sample - Procedure - Reliability
  by using K-R method - Reliability
  by using analysis of variance
  method - Reliability by test -
  re-test method - Interpretation.

XI  VALIDITY  ..............................  173 - 187
  Types of validity - Studies of
  the validity of some allied
  tests of social intelligence -
  Validity of the present test -
  Content validity - Concurrent
  validity - Cross validation-
  Construct validity.

XII  FACTOR ANALYSIS OF THE TESTS ......  188 - 197
  Sample - Correlation matrix -
  Analysis - First factor matrix -
  First residual matrix.

XIII SUMMARY AND OBSERVATIONS ..........  198 - 205
  Sex and social intelligence -
  Abstract intelligence and social
  intelligence - Performance of
  various occupational groups on
  the different sub-tests.

*  APPENDIX A  ............................  206
  Ranking of abilities.

*  APPENDIX B  ............................  207 - 208
  Rating scale for participation
  in social and cultural activities
  of the school.
* APPENDIX C ................................. 209 - 210
  Rating scale for knowledge and practice of social usage.

* APPENDIX D ................................. 211 - 283
  Tryout form  (Gujarati)
  Final form  (Gujarati)
  Key  (Gujarati)
  Instruction for test administrators  (Gujarati)
  English version of tests.

* APPENDIX E ................................. 234 - 239
  Table of percentile ranks.

* BIBLIOGRAPHY .............................. 230 - 234
