PREFACE

The subject of management accounting is expanding its horizon day-by-day. Be it a trading organisation, a small manufacturing unit, a professionally managed big industrial undertaking or a service organisation, the application of management accounting techniques is no exception to it.

There is scattered literature on various management accounting techniques in foreign literature and to some extent in Indian literature, but a comprehensive work on a number of management accounting techniques related with lending portfolio is not available.

Moreover, there is no work available on the effect, if any, of the advances and/or volume of business of a branch on the application of management accounting techniques. Added to this missing aspect is the non-availability of the work on the effect of the extent of application of management accounting techniques on the problem loans eventhough some literature on loan losses is available. A combined study of all these aspects with reference to commercial banks is a desideratum. Hence, the present study of various management accounting techniques is taken up with a view that it may remove the long felt need.

In the present study an attempt is made to examine the application of management accounting techniques in lending
decision by commercial banks in India. For this purpose Baroda city Region is selected as sample which represents the population.

The study attempts to examine the importance given to various traditional factors like character, capability etc. while taking lending decision and thereafter it proceeds to an analysis of application of various management accounting techniques with reference to different aspects. The techniques under study are: business plan, break even analysis, method of costing, cashflow, funds flow and ratio analysis. The application of these techniques is examined with reference to segment, the relationship existing between the segments, relationship between techniques regarding their application. Moreover, the application of management accounting techniques is also examined with reference to segment, volume of business of branch and advances of the branch. Further, the depth with which these techniques are applied is also examined.

The most burning problem at present for the banking industry is the loan losses, and it is for this purpose that an attempt is made to estimate and examine the relationship between the application of management accounting techniques and the advances turning out to be a problem credit.

Now the pleasant task of acknowledgements : At the outset I must express my deep sense of gratitude to my esteemed research guide Professor A.G. Patel, the Ex-Dean, Faculty of Commerce and Ex-Head of the Department of Accounting and Financial Management, for his continuous flow of inspiration and valuable guidance and
constructive suggestions. Inspite of his heavy schedule of work he has gone through each and every word and has offered his valuable suggestions. Words are insufficient to express my deep sense of gratitude to him. This has enabled me to complete this work. Mrs. Kusumben A. Patel, alway ready to bestow motherly care on me has been another inspiring source in my work and I shall be failing in my duty if I do not express my deep thanks to her. I wish to thank Shri Sandeep A. Patel who has been kind in providing me the xerox copy of relevant material from U.S.A.

I cannot forget to express my thanks to Prof. (Dr.) J.H. Shah, Head, Department of Accounting and Financial Management for helping me in several ways. I am equally thankful to Shri J.R. Khedkar, I/C. Head, Department of Accounting and Financial Management for his help in several ways. I am also thankful to Prof. B.S. Patel, Dean, Faculty of Commerce, M.S. University of Baroda, Baroda, Professor M.D. Sharma, Ex-Head, Department of Banking and Ex-Dean, Faculty of Commerce, Prof. (Dr.) Elavis, Head, Department of Banking, Faculty of Commerce, Prof. V.N. Kothari, Department of Economics and Ex-Dean, Faculty of Arts and Prof. Maya Shah, Head, Department of Economics, Dean, Faculty of Arts and Prof. N.M. Pandya, Department of Economics, Faculty of Arts, M.S. University of Baroda.

I would like to thank Professor G.C. Beri, the Former Dean, Faculty of Management Studies and Professor M.M. Dadi, Dean, Faculty of Management Studies, who has been since I joined this Faculty, a source of inspiration and has kindly allowed me the use of the computer whenever required in connection with the present study.
I am thankful to Shri R.K. Shukla, Senior Manager (Training), Bank of Baroda, Regional Training Centre, Baroda, for providing me number of books at my request and pinpointing the relevant books on my subject. I am thankful to Miss Bibha Ganguly, the Librarian, National Institute of Bank Management, Pune, for responding very quickly to my requests regarding the information for 'The Journal of Commercial Bank Lending' and for providing guidance to me with reference to varied information and literature relevant to my research problem available in NIBM library enabling me to have a speedy grasp on work during my short stay there. I am also thankful to Shri R.R. Jangam, Asst. Chief, Administrative Services, NIBM, Pune for granting me accommodation inspite of their tight schedule. I am also thankful to Librarian, Indian Institute of Management, Ahmedabad for lending me required books on my request within no time.

I am thankful to Shri K.J. Shukla, AGM, MIS, State Bank of India, Local Head Office, Ahmedabad, Shri Raman, Deputy Manager (MIS), State Bank of India, Local Head Office, Ahmedabad, Mr. Radhakrishnan, AGM, Region-II, State Bank of India, Baroda and Shri P.B. Panicker, Manager (MIS), State Bank of India, Baroda, for providing me their valuable co-operation and guidance during the discussions whenever I contacted them.

I am equally very much grateful to Shri K.C. Patel, Deputy General Manager, Bank of Baroda, Central Gujarat Zone, Shri Ashok Pathak, Senior Manager, Bank of Baroda, Kothi Branch, Shri P.K.
Desai, Senior Manager, Bank of Baroda, Shri R.N. Godiawala, Regional Manager, Dena Bank, Baroda, Shri A.P. Shah, Regional Manager, Union Bank of India, for their valuable guidance and co-operation during discussions, inspite of their busy schedule, whenever I contacted them. I am also thankful to Shri R.P. Marathe, Manager (Planning) for providing the latest data of Banking Statistics.

I cannot forget to thank the busy branch Managers, one and all who spared their valuable time for me by responding to my detailed questionnaire and unending queries during discussions with them. I would also like to express my thanks to Shri P.G. Vyas, Former Senior Manager, Bank of Baroda, for his help.

I am thankful to Prof. Harshad Patel, Director, Computer Centre, M.S. University of Baroda, for allowing me the use of computer there. I am thankful to Shri Vinod Padaria for providing me required assistance about the use of Wordstar and Lotus on computer.

It will be too personal to express that I bow down to the feet of my parents Professor S.G. Kantawala, Ex-Professor, Ex-Head, Department of Sanskrit, Pali and Prakrit, Ex-Dean, Faculty of Arts, and Ex-Director, Oriental Institute, M.S. University of Baroda and Mrs. V.S. Kantawala, who are the basic motivational and inspiring force in my study. I also can't forget my two elder sisters: Dr. B.S. Kantawala, Reader in Economics, Department of Economics, Faculty of Arts, M.S. University of Baroda and Dr. P.S. Kantawala.
Lecture in Applied Mathematics, Department of Applied Mathematics, Faculty of Technology and Engineering, M.S. University of Baroda, who have provided their guidance and help in this work and endless inspiration during the period of my study.

Last but not the least I would like to thank equally Shri N.C. Mistry for neatly typing within a very short period of time.

PLACE : BARODA
DATE : 30th December, 1993

A.S. KANTAWALA
