CHAPTER 9

BIBLIOGRAPHY

1. **AACC 1976.** Approved Laboratory Methods. American Association of Cereal Chemists, St Paul Minnesota, USA

Conference Functional Properties on Non-digestible Carbohydrates, Gallon et al. Lisbon, Portugal

51. Cani PD et al 2007 b. Selective increase of *bifidobacteria* in gut microflora improve high fat diet induced diabetes in mice through a mechanism associated with endotoxaemia. Diabetologia 50:2374-2380

64. **Causey JL, Feirtag JM, Tungland BC, Slavin JL 2000 b.** Administration of chicory inulin decreases fecal B-glucoronidase activity and increases Lactobacillus species in humans: implications for gastrointestinal health. Digestive Diseases and Sciences (submitted)

67. **Chadwick RW, George S, Claxton LD 1992.** Role of the gastrointestinal mucosa and microflora in the bioactivation of dietary and environmental mutagen carcinogens Drug Metab Rev 24:425-92

69. **Chattarjee 1976.** Human Physiology. Medical Allied Agency, Calcutta 1:105-106

70. **Chen H, Rubinthaier GL, Schanus EG 1988.** Effect of apple fibre and cellulose on the physical properties of wheat flour

71. **Chen H, Tubenthaler GK, Leung HK, Baranowski JD 1998.** Chemical, physical and banking properties of apple fiber compared with oat and wheat bran. Cereal Chem 65:244-250

73. **Chen J, Ping Zahang Y, Guang Xia Xiao 1999.** Annals of Burns and Fire Disasters XII n-1

101. **Dyssler et al 1999.** Inulin and oligofructose determination, in complex carbohydrates in foods: definition, functionality and analysis (Eds.) Marcel Dekker Co. CRC Press. pp 216-219

102. **Ellegard LH, Andersson H, Bosaeus I 1997.** Inulin and oligofructose do not influence the absorption of cholesterol, or the excretion of cholesterol, Ca MS Zn, Fe, or bile acids but increaser energy excretion in ileostomy subjects. Cur J Clin Nut 51:1-5

105. **FAO 1998.** Carbohydrates in human nutrition. FAO Food and Nutrition Papers- 66

137. **Gibson GR, Wang X 1994c.** Inhibitory effects of *bifidobacteria* on other colonic bacteria. J Appl Bacteria 77:412-420

142. **Gopalan C, Sastri BV, Balasubramaniunt SC 2004.** Nutritive value of Indian foods, National Institute of Nutrition, ICMR.

143. **Gopalan C, Shastri DVR, Balasubramanian SC 2004.** Nutritive value of Indian Foods revised edition NIN, Hyderabad

149. **Harmsen HJ, Raangs GC, Franks A, Wildeboer Veloo AC, Welling GW 2002.** The effect of the prebiotic inulin and the probiotic *Bifidobacterium longum* on the fecal microflora of healthy volunteers measured by FISH and DGGE. Microbial Ecol Health Dis 14:219

171. **I.S.I 1982.** Handbook of food analysis part VI. Protein: Kjeldahl digestion method. pp 65

172. **Indian Council of Agriculture Research (ICAR) 2006.** Handbook of Agriculture. 5th ed, Directorate of Information and Publications of Agriculture, New Delhi

173. **International Life Sciences Institute - (ILSI) 2009.** India Guidelines and Criteria for Evaluation of Efficacy, Safety And Health Claim of Probiotic in Food Products in India

175. **Jangchaimonta S 2006.** Formulation of wheat flour and resistant starch mix for bakery products, Bangkok, Faculty of Graduate Studies, Mahidol University

176. **Jelliffe, DB 1996.** The assessment of the nutritional status of community, Geneva WHO Monograph No. 53

195. **Kok N, Roberfroid M, Delzenne N 1996 a.** Dietary oligofructose modifies the impact of fructose on hepatic triacylglycerol metabolism. Metab 45:1547-1550

197. **Kok N, Roberfroid M, Delzenne N 1996 c.** Dietary oligofructose modifies the impact of fructose on hepatic triacylglycerol metabolism. Metabolism 45:1547-1550

219. **Marchetti G 1993.** Inulin and falcons. Industries Alimentary 32:945-949

226. Menne E, Guggenbuhl N, Roberfroid M 2000. Fn-type Chicory inulin hydrolysate has a prebiotic effect in humans. J Nutr 130:1197-1199

267. **Probert HM, Gibson GR 2002.** Investigating the prebiotic and gas generating effects of selected carbohydrates on the human colonic microflora. Lett Appl Microbioa 35:473-480

---

*Parnami and Sheth 2010 295*

322. **Schafer E, Lutz T** 1990. Effects of short-chain fatty acids and K on absorption of Mg and other cations by the colon and caecum. Z Emdhrungswiss 29:162-68

326. **Scholz-Ahrens KE, AOil Y, Schrezenmeir J** 2002. Effect of oligofructose or dietary calcium on repeated calcium and phosphorus balances, bone
mineralization and trabecular structure in ovariectomized rats.

88:365-377

338. **Sugatani J, Wada T, Osabe M, Yamakawa K, Yoshinari K, Miwa M 2006.** Dietary inulin alleviates hepatic steatosis and xenobiotics induced liver injury in rats fed a high fat and high sucrose diet: association with the suppression of hepatic cytochrome P450 and hepatocyte nuclear factor 4alpha expression. Drug Metab Dispos 34:1677-1687

352. **Tungland D, Meyer 2002.** Nondigestible oligo- and polysaccharides (dietary fiber): their physiology and role in human health and food b.c. Comprehensive reviews in food science and food safety (I):2-3

370. **Wiedmann M, Jager M 1997.** Synergistic sweeteners. Food Ingredients and Analysis International (Nov- Dec) 54-56

373. **Williams M, Pehu E, Ragasa C 2006.** Functional foods: opportunities and Challenges for developing countries; Agriculture and rural development notes, the World bank, supplement issue Sep, 19

378. **Wouters E 1998.** The benefits of inulin and oligofructose in ice cream. World of ingredients Sept, 44-45
