Dear Students:

It will be enough to tell you that I am doing teaching work in the field of education and am worried especially to find out the types of changes by means of which the modern schools can be turned into ideal ones.

No matter how long you have been studying in this school, but you might have certainly gathered various kinds of experiences in its environment. In order to know your personal and real views about your school a few questions have been given on the reverse. Please put the tick mark ( ) against any one of the four probable answers given under them which represents your own feelings.

You are to answer each question accurately without any hesitation so as to enable us to render maximum possible help to the student-community.

I/assure you that your answers will be kept confidential. None of you needs to be worried in any way.

Thanking you for your co-operation,

Yours sincerely

NIRMAL KUMAR BHAGIA
Lecturer, Shri Mahesh Teachers' College, Jodhpur.
Note: - Write your name, age, sex, class, section and all other particulars in the columns given below:

Name in Full ____________________________ Sex: Boy/Girl

Age ____________________________
