ACKNOWLEDGMENT

The author makes grateful acknowledgment of his indebtedness to Prof. G.V. Ramakrishnan and Dr. (Mrs) R. Rajalakshmi for guidance throughout the progress of this investigation and in the presentation of this thesis; to Miss I. Naik, Miss J. Kapur, Miss C. Chhabra and Miss V. Dighe, for their help in getting milk samples; the authorities of Shree Sayaji General Hospital, Baroda, for their kind provision of milk samples and the Indian Council of Medical Research, for the financial assistance during the period 1957-1961, when the investigations incorporated in this thesis were conducted.
