ACKNOWLEDGEMENTS

This piece of work was undertaken with the guidance of Dr. I.S. Bright Singh, Reader in Microbiology, School of Environmental Studies, Cochin University of Science and Technology who conceptualised the whole programme as part of the research project Coir Retting: Process upgradation and Pollution abatement through environmental biotechnology sponsored by Coir Board. I express my gratitude to my guide for his guidance, constant supervision and critical appraisal throughout the research period and the preparation of the thesis.

I also take this opportunity to thank Dr. A. Mohandas, Director, School of Environmental Studies for his cooperation, and for providing all the facilities required for the research.

The financial support by the Coir Board, Ministry of Commerce, Govt of India is gratefully and sincerely acknowledged.

I thank the former Chairman of Coir Board Shri. Joseph I.A.S, the present Chairmen of Coir Board Shri. Christy Fernandez, Dr. U.S. Sharma, Director, CCRI, Kalavoor, Smt. Anitha Das Ravindranath, Scientific Officer, CCRI, Kalavoor for their keen interest in this work and for the valuable suggestions and support.

I thank Dr. S.S. Kulkarni, Scientist, Chemical Engg Division, NCL, Pune for his guidance, advices and the technical support provided for setting up and designing a reverse osmosis unit, the constant help given during the period of my research; Shri. N.K. Chandraababu, Assistant Director of Central Leather Research Institute, Adyar, Madras for the support and technical guidance rendered in testing the tanning property; Shri. K.P. Janakiraman, HOD, Textile Chemistry of SITRA, Coimbatore for the help and
support rendered in testing the mordanting property; Dr. Shankaran, Scientist, Kerala Forest Research Institute, Peechi, Kerala for helping me in testing the antifungal property and Dr. Varma, Scientist, Kerala Forest Research Institute, Peechi, Kerala for his valuable suggestions.

I would like to express my gratitude to Shri. Joseph.J, Shri.Venkitesh, Shri. Somasundaram of AVT, Vazhakulam in helping me with the HPLC analysis.

I am indebted to Dr.M.C.Nair, College of Agriculture, Vellayani, Trivandrum for providing certain fungal cultures for the study.

I also thank Dr. Rosamma Philip, Lecturer, School of Marine Biology for all help and valuable suggestions rendered during the period of research.

Smt. Meera Jan Abraham, Research Scholar, School of Marine Sciences spent quite a lot of time in helping me with the work on determining the antifoulung property of polyphenols.

I express my sincere thanks to all the faculty members, technical staff and non-teaching staff of the school of Environmental Studies for their help and co-operation, especially to Dr. Sivashankara Pillai, Professor, Dr. Sathyathan, technical officer and Dr. Rajalekshmi Amma, technical Assistant.

I am grateful to Dr.Muraleedharan Pillai and Dr. Chandramohan, Chemical Oceanography Dept, CUSAT for their valuable suggestions and help and Ms. Siny K.P of BTS, Aluva for all the assistantce rendered at various stages of this work.

I thank my colleagues Mr.Narayanan.P. I, Mr. Harikrishnan.P, Mr.Sunilkumar, Mr.Abudl Khader, Mr.Radhrakrishnan, Mrs.Saritha G Bhat, Ms. Kavitha Ramachandran, Ms. Cini Achuthan, Ms. Valsamma Joseph, Ms.Latha.C, Ms.Divya,
Mr. Jayaprakash, Ms. Manjusha and Ms. Reshmi Varghese for their encouragement, support and companionship.

I thank Mr. Gopinath, Mrs. Geetha Gopinath, Mr. Rajeevan, Mrs. Jyothi Rajeevan, Ms. Snehajyothi, Ms. Shanthi, and all my family members for their love and encouragement.

I take this opportunity to thank my friends Mr. Jayadev.K.B and Mr. Rajesh.C.K for their help and encouragement.

The services rendered by Mr. Balan Panicker for drawing the figures are thankfully acknowledged.

I thank Mr. Biju V.George, Mr. Brilston Francis and Ms. Nisha Kurien of BICS Communications for graphics.

And finally its time to express my heartfelt gratitude to all those special people in my life, who have contributed a great deal to help me complete this work.

T.R. Satyakeerthy
