ACKNOWLEDGEMENTS

I wish to express my appreciation and deep sense of undying gratitude to Dr. R.M. Naik, Reader in Zoology, M.S. University of Baroda, for suggesting the problem and for his constant guidance and assistance throughout the course of this work.

Thanks are due to the members of the Department of Statistics for statistical aid and to Prof. N.S. Pandya and other officials of the Meteorological Observatory for putting their meteorological observations at my disposal. I am also thankful to my colleagues in the department for their co-operation and help.

This study was supported by a research grant given to Dr. R.M. Naik by the M.S. University of Baroda.
