ACKNOWLEDGEMENT

I would like to express my heartfelt gratitude to my guide, Dr. (Mrs.) K.S. Lyngdoh, Professor of Education, North Eastern Hill University, Shillong for her constant guidance, encouragement and help without which the present work would not have been completed.

I am equally grateful to Dr. P. P. Gokulnathan, Professor of Education who has helped me in every possible way to complete my Research work. I also owe a sense of gratitude to Dr. Mathew George, for the valuable help given by him.

I have received much encouragement and help from all my teachers in the Department. I owe a depth of gratitude to each one of them for their co-operation extended to me in various ways.

I want to express my thanks to Dr. N. P. Goel, Department of Geography, North Eastern Hill University for helping in data processing. I also thank Mrs. K. Goel, Rynjah, Shillong in bringing this thesis to the present form on her computer.
Undertaking Research of this type involves the efforts of many other people. I especially appreciate the contribution made by all, either directly or indirectly. There is no way I can mention everyone who assisted me, but I humbly acknowledge their help and would like to thank them all from the bottom of my heart.

Vanessa Kharmawphlang
Research Scholar
Dept. of Education
N.E.H.U., Shillong
