ACKNOWLEDGEMENT

First of all, I would like express my heartfelt thanks to my supervisor, Professor A. C. Mohapatra, Department of Geography, North-Eastern Hill University, Shillong (India), for meticulously supervising, encouraging and constantly guiding me at every stage of this Ph.D. work, without which this work would not have materialised. I shall remain ever grateful to him for his painstaking efforts in going through several drafts of the thesis. In deed, I have been very fortunate to have Ph.D. guide of such an eminent academic stature.

I am also highly indebted to the Joint-supervisor, Professor B.K. Tiwari, Centre for Environmental Studies, North-Eastern Hill University, Shillong, for giving valuable suggestions at various stages of the Ph.D. work. My thanks also go to Dr. Zahid Husain, Reader, Department of Geography, NEHU, for his valuable suggestions and moral support from time to time during the course of my Ph.D.

Thanks are also due to the Vice-Chancellor of the University, Professor Mrinal Miri, the Dean of the School of Human and Environmental Sciences and the Head of Department of Geography, North Eastern Hill University, Shillong for providing various facilities to carry out the Ph.D. work. Thanks also go to the both teaching and non-teaching staff of the Department of Geography, NEHU.

I also owe thanks to the Vice-Chancellor, Dean of the Arts, and the Head of Department of Geography University of Peradeniya, Sri Lanka, for granting me study leave and some financial help to undertake my Ph.D. work at this University in India.

My special thanks go to Miss Romasa Mohapatra for giving her valuable time to prepare some of the maps for the thesis. Thanks are also to Danny Synnah and Aparesh Patra for
helping me to scan some of the maps. I express my thanks to Dr. N.P. Goel of NEHU for help in final editing and formatting of the thesis.

The personnel of the Department of Agriculture, Department of Meteorology, Ministry of Plantation, Director of Coconut Development Authority, Librarian of Sri Lanka Tea Board, Assistant Director of Agriculture Sector, Department and Census and Statistics, Department of Statistics and Planning Division, Colombo, also deserve my special thanks for their kind co-operation in making available data and research materials.

I am also grateful to Mr. Dharmadas, Survey Officer for helping me during the fieldwork; Dr. Punyawardena, NRMC, Peradeniya for his co-operation in procuring some of the missing climatic data; Director of the Kekirawa AGA Division, Agrarian Officer and Gramaseva Niladhari of Kelepuiliyankulama GA Division, for paddy survey, and President of Kohonsiyapattuwa Small Tea Holding Committee, President of Dikkumbura-Raththota, Small Tea Holding Committee for tea survey; Assistant Director, Chillaw Division, Gramaseva Niladhari, Ambakandawila village and various officers and farmers who very kindly gave me necessary information.

Very special thanks to my friend Ms Queenbala Marak, Lecturer, Department of Anthropology, NEHU for her moral support and friendly association with me during my stay at NEHU. Thanks also go to many other friends like Dr. Utpal De and Dr. Gurudas Das, Readers, Department of Economics, and Prof. Veena Saraf, Department of Library and Information Sciences, NEHU for their kind co-operation during my stay at NEHU.

I would like to offer thanks to my all hostel friends for making a congenial environment and giving moral support which made me happy and reduced my mental stress.
I express my thanks and gratitude to my mother and family members for their constant encouragement and inspiration throughout my academic carrier, especially in the successful completion of the Ph.D. thesis.

Last, but not the least, I express my most heartfelt gratitude to my husband for his infinite support, encouragement and inspiration throughout my academic achievements, including the Ph.D. and also for giving me moral support and patience during my stay in India.
