## CHAPTER 1: INTRODUCTION 1-18

1.1. Background 1
1.2. The Concept of CRM, E-CRM, Online Communities and Customer Experience Management
   - 1.2.1. Customer Relationship Management 2
   - 1.2.2. E-CRM 4
   - 1.2.3. Online Communities 4
   - 1.2.4. Customer Experience Management 6
1.3. Need of the Study 7
1.4. Aim of the Research 8
1.5. Research Objectives 10
1.6. Research Methodology 11
1.7. Significance of the Study 12
1.8. Scope of the Study 13
1.9. Limitations of the Study 14
1.10. Structure of the Thesis 15
CHAPTER 2: LITERATURE REVIEW

2.1. Customer Relationship Management

2.1.1. The Goals of CRM

2.1.2. The CRM Continuum

2.1.3. CRM Processes

2.1.4. Role of CRM Technology

2.1.5. CRM and Customer Life Cycle

2.1.6. Bonding for CRM

2.1.6.1. Financial Bonds

2.1.6.2. Social Bonds

2.1.6.3. Customisation Bonds

2.1.6.4. Structural Bonds

2.2. E-CRM

2.2.1. Operational CRM

2.2.2. Analytical CRM

2.2.3. Collaborative CRM

2.2.4. Using Online Communities as tools for Operational, Analytical and Collaborative CRM

2.3. Community of Practice

2.3.1. Role of Information Communication Technology

2.3.2. Community of Practice and the Virtual World

2.3.3. Definition of an Online Community Proposed by various authors

2.3.4. Previous Classifications of Online Communities

2.3.5. Previous Research conducted in domain of Online Communities

2.4. Online Communities

2.4.1. Company Online Business Communities

2.4.2. Core Characteristics and Possible usage of Online Communities

2.4.3. Salient Features of an Online Community

2.4.4. Online Communities Life Cycle

2.4.5. Member Retention in Online Communities
2.4.6. Beta groups in online communities 55
2.4.7. Online Business Communities and Consumer Price Sensitivity 56

2.5. Customer Experience Management 57
  2.5.1. Harnessing Collaborative Intelligence 59
  2.5.2. Increasing employee connectivity on operational issues 59
  2.5.3. Stimulating learning for faster responsiveness/velocity 60
  2.5.4. Cross Organizational Business Networks 60
  2.5.5. Customer Equity 61
    2.5.5.1. Value Equity 61
    2.5.5.2. Brand Equity 61
    2.5.5.3. Relationship Equity 62

2.6. Internet Marketing 62
  2.6.1. Metcalf Law 63
  2.6.2. Interpretations of Metcalf’s Law 64
  2.6.3. Implications of Metcalf’s law 65
  2.6.4. Examples of Metcalf’s law in practice 65
  2.6.5. Individual Network Value 67
  2.6.6. Community Network Value 67

2.7. Co-creation 68
  2.7.1. Co-creation and Online Community 70
  2.7.2. Implementation of Co-Creation 72
  2.7.3. Online Community- A Technological enabler for Co-Creation 73

2.8. Consumer Evangelism 74

2.9. CRM Functionalities 74
  2.9.1. Campaign Management 74
  2.9.2. Consumer Segmentation 75
  2.9.3. Response Management 76
  2.9.4. Response Modelling 76
  2.9.5. Contact Management 77
  2.9.6. Account Management 77
2.10. CRM Strategies 77

2.10.1. Customer Portfolio Analysis 77
2.10.2. Key Account Management 80
2.10.3. **Customer Retention Marketing Mix** 81
   2.10.3.1. Product Extras 81
   2.10.3.2. Reinforcing Promotions 81
   2.10.3.3. Sales force Connections 81
   2.10.3.4. Specialised Distribution 82
   2.10.3.5. Post Purchase Communication 82
   2.10.3.6. Customer Reward and Loyalty Programs 82
2.10.4. Consumer Profiling 83

2.11. Web 2.0 83

2.11.1. Blogs 84
2.11.2. Wikis 85

2.12. E-Commerce 86

2.12.1. The Internet’s Role in E-Commerce 86

2.13. Customer Life Time Value 87

2.13.1. Customer Lifetime Value Measurement 87

2.14.1. Role of Internet in impacting Consumer Price Sensitivity 91
2.14.2. Role of online content in influencing Consumer Price Sensitivity 92
2.14.3. Ability of the Internet to increase consumer perceived value 92

2.15. Price Effects in Online Domain 93

2.15.1. Reference Price Effect 93
2.15.2. Difficult Comparison Effect 93
2.15.3. Switching Cost Effect 94
2.15.4. Price Quality Effect 95
CHAPTER 3: RESEARCH METHODOLOGY 97-150

3.1. Introduction 97
   3.1.1. Research Design 97

3.2. Conducting pilot studies for selection of an online tool and a comparative analysis of three tools for CRM and CEM 98
   3.2.1. Pilot Study 98
      3.2.1.1. Evaluation Grid 1: Selection of an online tool 98
      3.2.1.2. Evaluation Grid 2: Comparative analysis of three tools for CRM and CEM 101

3.2.2. Best practices in Customer Experience Management 103
   3.2.2.1. Building Emotional Connection with Customers 103
   3.2.2.2. Listening to Voice of the customer and engineering influence 104
   3.2.2.3. Building consumer participation 105
   3.2.2.4. Increasing customer knowledge and clear priorities for acting on customer feedback 105
   3.2.2.5. Increasing customer centrality 106
   3.2.2.6. Building a Community 106

3.3. Proposed Conceptual Model 109

3.4. Research Objectives 110

3.5. Research Methodology for formulation of Research Instrument 110
   3.5.1. Netnography 111
   3.5.2. Significance of Netnography 112
   3.5.3. Procedure in Netnography 112
      3.5.3.1. Definition of Research field 112
      3.5.3.2. Identification and selection of Online Communities 113
      3.5.3.3. Community Observation and Data Collection 113
      3.5.3.4. Data Analysis and Aggregation of consumer insights 113
      3.5.3.5. Translation of Community insights into product 114
and service solutions

3.5.4. Strengths of Netnography 114
3.5.5. Benefits of Netnography to Online Communities 114
3.5.6. Limitations of Netnography 115
3.5.7. Netnography Methods Adopted 115

3.6. Consumer Trustworthiness Regression model using Netnography (CTR) 116

3.6.1. Netnography of 40 online product communities of Apple 116
  3.6.1.1. Content Organization 117
  3.6.1.2. Participation and Reciprocity in the Apple’s Online Community 118
  3.6.2. Netnography of Dell Ideastorm 120

3.7. Research Instruments 121

3.7.1. Questionnaire for Online Community Consumers (RI-1) 121
3.7.2. Questionnaire for Online Community Consumers (RI-2) 123
3.7.3. Questionnaire for Online Community Managers (RI-3) 123
3.7.4. Pretesting the Research Instruments (RI-1, RI-2 and RI-3) 125
3.7.5. Reliability and Validity of RI-1 126
3.7.6. Reliability and Validity of RI-2 128
3.7.7. Reliability and Validity of RI-3 129

3.8. Co-creation model using INV based on Metcalf Law (C-INV) 130

3.8.1. Identification of Determinants of Individual Network Value 130
3.8.2. Weighting of Determinants 131
3.8.3. Framework for calculating Individual Network Value (INV) 131
3.8.4. Framework for calculating value of an online community 131

3.10. Data Collection for RI-1 133

3.10.1. Phase I of primary data collection 133
3.10.2. Phase II of primary data collection (For Co-creation model using INV based on Metcalf Law (C-INV)) 134
4.2.1. Participation 158
4.2.2. Emotional Attachment 160
4.2.3. Online Trust 162
4.2.4. Commitment 164
4.2.5. Member Loyalty 167
4.2.6. Attitude towards Switching 169
4.2.7. Degree of Participation 171
4.2.8. Usability of Online Tools 176
4.2.9. Period of Association with the Network 179

4.3. Co-creation model using INV based on Metcalf Law (C-INV) 180

4.4. Maximising Individual Network Value (INV) using Linear Programming 185

4.5. Analysis of Research Instrument for Online Community Consumers (RI-2) 186
   - Consumer Price Sensitivity model using K-means cluster analysis (CPS)
     - 4.5.1. For Expensive products 187
     - 4.5.2. For Medium Cost Products 188
     - 4.5.3. For Low Cost Products 189

4.6. Analysis of Research Instrument for Online Community Managers (RI-3) 196
   - 4.6.1. Community Dynamics 196
   - 4.6.2. Customer Relationship Management 199
   - 4.6.3. Customer Lifetime Value 200
   - 4.6.4. Co-creation and Collaboration Enabler 203
   - 4.6.5. Return on Investment 206

4.6.6. Business Online Community Credibility model (BOCC) 207
   - using Linear Programming
     - 4.6.6.1. Weighting of Determinants 208
     - 4.6.6.2. Framework for calculating Online Community Credibility Score (OCCS_i) 208
     - 4.6.6.3. Maximising Online Community Credibility Score (OCCS_i) 211
CHAPTER 5: CONCLUSIONS AND SCOPE OF FURTHER RESEARCH

5.1. Consumer Trustworthiness Regression model using Netnography (CTR) 213

5.1.1. Netnography of 40 online product communities of Apple 213
   5.1.1.1. Conclusions 214
   5.1.1.2. Implications to Organizations 215
   5.1.1.3. Limitations and Scope for Future Work 215

5.1.2. Netnography of Dell Ideastorm 216
   5.1.2.1. Conclusions 216
   5.1.2.2. Implications to Organizations 216

5.2. Conclusions and Implications for RI-1 216
   5.2.1. Conclusions for questions of RI-1 216
      5.2.1.1. Participation 216
      5.2.1.2. Emotional Attachment 217
      5.2.1.3. Online Trust 217
      5.2.1.4. Commitment 217
      5.2.1.5. Member Loyalty 218
      5.2.1.6. Attitude towards Switching 218
      5.2.1.7. Degree of Participation 218
      5.2.1.8. Usability of Online Tools 218
   5.2.2. Implications to Organizations 219
   5.2.3. Limitations and Scope for Future Work 219

5.3. Co-creation Model using INV based on Metcalf Law (C-INV) 220
   5.3.1. Conclusions 221
   5.3.2. Implications to Organizations 222
   5.3.3. Limitations and Scope for Future Work 222

5.4. RI-2- Consumer Price Sensitivity Model using K-means cluster analysis (CPS) 223
   5.4.1. Conclusions of RI-2 which led to creation of Consumer Price 224
Sensitivity Model
5.4.2. Implications to Organizations 224
5.4.3. Limitations and Scope for Future Work 225

5.5. RI-3-Business Online Community Credibility Model (BOCC) 225

using Linear Programming
5.5.1. Conclusions for RI-3 which led to Business Online Community Credibility Model (BOCC) 225
5.5.2. Implications to Organizations 226

ANNEXURES 227-269

❖ ANNEXURE I 228
  ➢ EVALUATION GRID 1 228
  ➢ EVALUATION GRID 2 229
  ➢ EVALUATION GRID 3 230
  ➢ EVALUATION GRID 4 231

❖ ANNEXURE II 232
  ➢ RESEARCH INSTRUMENT: RI-1 232
  ➢ RESEARCH INSTRUMENT: RI-2 239
  ➢ RESEARCH INSTRUMENT: RI-3 241

❖ ANNEXURE III 247
  ➢ TABLES AND FIGURES OF RESULTS AND FINDINGS 247-269
