ACKNOWLEDGEMENTS

These are the blessings of Almighty whose Divine light provided me the guidance, inspiration, faith and strength to carry on even when the going got tough and today by his grace, I am on the verge of fulfilling a dream. In this scientific and technological society of super excellence and eminence with a high intellectual fervor, apart from personal effort and steady pace of work, persistent inspiration and constant encouragement of countless number of individuals coming from different section academic achievements serve as the driving force. To quote them all may not quite apply suit the bill, although the taboo of conciseness does not spare the vastness, would definitely convey the feelings of one’s heart to acknowledge their encouragements and assistance with kindest regards.

I feel greatly privileged in the lining I received from Prof. Kamal Ghanshala, President Graphic Era University, Dehradun, for creating a scholastic milieu in the university campus so that I could access all the facilities offered by the university in completing this research work. I am grateful to him.

I would also like to express my deep and sincere gratitude to Dr. R.C. Joshi, chancellor, Dr. Pravin Patil, dean research and Dr. R.G. Sharma, HOD Chemistry Department, GEU, Dehradun for suggestions to improve my thesis work.

It gives me great pleasure in expressing my profound sense of gratitude and immense respect to my reverend guide Prof. C.K. Saini for his meticulous guidance, prudent support and enthusiastic interest throughout the course of present investigation. His pertinent suggestions and constructive criticism not only strengthened my skills in research methodology but also helped me to develop a never-ending quest for knowledge. I am extremely thankful to him for patiently correcting my mistakes and developing the positive research attitude in me.

I wish to extend my sincere thanks to Prof. & Head (Ms) Vijaya Agarwala, Department Centre of excellence and Metallurgical and Materials Engineering (MMED), I.I.T. Roorkee, Roorkee, for providing the basic infrastructural facilities for carrying out the research work in her lab.
I am extremely grateful to **Prof. R.C Agarwala**, Department of MMED for their valuable suggestion throughout the research work.

My heartfelt thanks to my laboratory colleagues, Neetu Sharma, Sanjay Sharma, Rahul Saini, Rekha Sharma, Ashutosh Sharma and Uday Kumar for their friendly cooperation and help.

My Special and heartiest thanks to my elder sister Dr.Sulaxna Sharma, for her meticulous guidance invaluable suggestion, consistent cooperation, support and love. She helped me in every way throughout the tenure of this work.

Sincere gratitude is expressed to my brother-in-law, Dr. Awanish Sharma for their constant encouragement and support during the preparation of thesis is thoroughly appreciated.

No words and no language are even sufficient to express my feeling towards my beloved mummy and papa for their support, bearance, blessings, especially invaluable untiring patience displayed. They have been the strongest influence in my life and always being there as guiding source and always kept me energetic and in full of sprits and motivated me to achieve the highest and best in life. It is their indomitable faith in me that has seen the realization of a dream. In its entirety, I humbly acclaim my indebtedness to them for prudently shaping my life.

I am in dearth of proper words to express my abounding feeling for my sister and friend Akshi and her husband Amit Sharma and my beloved brother Sunny for their consistent cooperation, support friendly presence and love to achieve this hallmark. I always cherish the memories of my pleasant association that I had with lovely naughty kids Khushi and Varu.

My heartfelt regards and gratitude to my father-in-law and mother-in-law for their support and blessings to complet this work. I am thankful to my brother-in-law Mr. Rahul kaushik my sister-in-law Mrs. Payal and her husband Sachin ji and little kids shubhank and shanvi for providing me a friendly environment during completion of this work.

I also thank the support and encouragement i receive from my caring husband.

There are innumerable friends and well wishers whose names have not figured alone but have helped me directly and indirectly during the course of my research work I thank them
individually for their sincere help and support. Really this thesis would not have been written without any of you.

Dated : 20 March. 2015
