Acknowledgements

I would like to take this opportunity to thank the many individuals who have contributed in so many ways, as both mentors and supporters, in helping me achieve this milestone in my professional career.

A very special word of thanks to my supervisor, Dr. H. K. Manonmani, whose guidance permitted me to achieve this milestone. Words are inadequate to express my deep sense of gratitude towards her inspiring guidance, unstinting support and constant encouragement during the course of this investigation. Working with her has been a very pleasant and rewarding experience. I thank her for providing a congenial and stimulating research atmosphere in the lab and for her wholehearted involvement, constructive suggestions and valuable advice in professional as well as personal affairs.

I wish to thank Prof. Ram Rajashekaran, Director, CFTRI and Dr. V. Prakash, former Director and Dr. Venkateshwara Rao, former acting Director, CFTRI for providing me an opportunity to work in this esteemed institute.

I would like to acknowledge Council of Scientific and Industrial Research, India, for the award of senior research fellowship to carry out this research work and for their continuous contribution to the development of science, technology and higher education in India.

I would also like to express my sincere gratitude to Dr. M.S. Thakur, Head and Dr. S. Divakar, former Head, Fermentation Technology and Bioengineering Department, CFTRI, for permitting me to use the facilities of the Department.

I thank all the staff of FTBE department for the support offered. My sincere thanks to Dr. S.G. Prapulla, Dr. A. P. Sattur, Dr. D. Somashekar and Dr. Praveena Bhatt for all the supports offered.

I also show my sincere appreciation and gratitude to Dr. M. C. Varadaraj, former Head, HRD, for bridging the gap between CFTRI and University of Mysore for all formalities towards this doctoral degree. I am also grateful to University of Mysore for the same.

My Valuable time was spent fruitfully among inspiring intellectuals with whose constant interactions, my ideas were nourished. I bring to mind Dr. Sukumar Debnath from Lipid Science & Traditional Foods, Dr. Indrani D and Ms. Crassina Shimray from Flour Milling, Baking & Confectionery Technology, Dr. Ravi R. and Dr. Asha M R from Sensory Science and Dr. Navin Kumar Rastogi from Food Engineering for the help, support and expert suggestions provided during the initial stages of my work.

I also gratefully acknowledge Mr. Mukund & Mr. Lokesh C from Central Instruments Facility & Services for their cooperation and support.
Specially acknowledged are the help and companionship rendered by my friends, which made my stay here a very pleasant one and a period which will always be remembered with nostalgia. A few names stand out among the many I would wish to personally thank. My heartfelt thanks to Dr. Arul Selvi for all the moral support, togetherness, deep discussions & for that special bond of friendship, Dayan Mandappa, Sowmya for being there when days were dull and bright and forever willingness to help & for sharing their ideas, viewpoints technologically.

I would like to remember Latha, Dr. Deepthi, Murthy, Darshan, Prasanna, Ranjini, Rashmi, Shamsiya, Nishita, Deepak, Sindhu, Selva, Vinayaka, Madhu, David & all other friends from FTBE.

I would like to share my happiness and thank a few important people who joined me in the discovery of what is life about and how to make the best of it: Kiran and Sandeep for their mystic presence in my life and strong bond of friendship. Nithin, Manju, Raju, Harish and Harsha for their unmatched and unconditional fondness.

A special note of thanks goes to Mr. Somanna, Mr. Punil Kumar and Mrs. Meenakshi who were helpful during my studies at FTBE.

I would also like to thank the staff of Central Instrumentation Facility Service (CIFS), Accounts and other administrative departments who were ever ready to help me when required.

No research is possible without good food & Library. I take this time to express my gratitude to all the canteen & library staff for their services.

To all who are not mentioned but in one way or the other have helped in the completion of this study, thank you very much. I would also like to thank my family for the support they provided me through my entire life.

Above all, I owe it all to Almighty God for granting me the wisdom, health and strength to undertake this research task and enabling me to its completion.

Mohan Kumar N.S
