ACKNOWLEDGEMENTS

"Praise be to Allah, the creator of the universe, the most gracious, most merciful, who gave me the courage to carry out this work."

Pursuing a Ph.D. project was both painful and enjoyable experience. It was just like climbing a high peak, step-by-step, accompanied with bitterness, hardships, frustration, encouragement and trust and with so many people's kind help. When I found myself at the top enjoying the beautiful scenery, I realized that it was, in fact, teamwork that got me there. Though, it will not be enough to express my gratitude in words to all those people who helped me, I would still like to give my many, many thanks to all these people.

First of all, I would like to Thank to the Chairman, Department of commerce Prof. Badar Alam Iqbal and the Dean, Faculty of commerce, Prof. Ziauddin Khairoowala for providing all the basic infrastructures and congenial environment to pursue Ph.d. Both were always source of inspiration for me because of their international exposure.

I would like to give my sincere thanks without any hesitation to Prof. Mohd. Mohsin Khan, who offered me so much advice, patiently supervising me, and always guiding me in the right direction, I've learned a lot from him, without his help I could not have finished my thesis successfully.
I would like to express my sincere thanks to Prof. Abdul Quayyum Khan for his suggestions, checking the thesis thoroughly and guiding me in completing the research work which enabled me to notice the weaknesses of my research and make the necessary improvements accordingly.

I would like to express my appreciation to all those investors, brokers and organizations, who have offered me their time when I collected necessary information.

I would like to thank to Prof Javed Akhtar for encouragement and help to fulfill my desire and to overcome every difficulty I encountered. It is not sufficient to express my gratitude with only a few words.

I'd like to convey my heartfelt thanks to my home university, Aligarh Muslim University for offering me an ideal environment in which I felt free and could concentrate on my research.
