Acknowledgement

The research findings embodied in the dissertation “Investigation on the Physico-chemical Properties of Capsular Polysaccharides from Some Serotypes of Klebsiella” were realized by me at the Department of Chemistry, Tripura University, Agartala, Tripura and at the Department of Chemistry, University of North Bengal, West Bengal, India.

At the outset, I would like to take the privilege of expressing my deep sense of respect and gratitude to Dr. Ranendu Kumar Nath and Dr. Amiya Kumar Panda. Their constant inspiration, affectionate guidance and valuable suggestions throughout the tenure of this work have enriched the dissertation and have nourished my knowledge and scientific aptitude. They have constantly monitored the progress of my work with both criticism and appreciation.

I acknowledge with pleasure the inspirations received from Prof. B. Dinda, Prof. D. Sinha, Prof. M. K. Singh, Dr. R. N. D. Purakayastha, Dr. S. Majumdar, Dr. U. C. De and Dr. A. Mitra for their encouraging support.

I owe a lot to my seniors Dr. Surajit Biswas, Dr. Biplab Ghosh, Santanu Majumder and Partha Sarathi Ghosh for their suggestions and warmly remember the cooperation of my colleagues Debashis Roy Chowdhury, Niranjan Das, Th. Charanjit Singh, Banti Ganguly and Jayasree Nath. I express special thanks to Kaushik Manna, Moumita Chakraborty, Banita Sinha and Sujoy Paul for their support at the Department of Chemistry, University of North Bengal to complete a part of my work.

I acknowledge Department of Science and Technology, Govt. of India, New Delhi, for financial support during the tenure of this work.
My acknowledgement would be incomplete without expressing gratitude to my parents for their unparallel support and inspiration throughout the tenure of the work providing all my needs and enduring all my lapses.

At last I remember the holy name which gave me enthusiasm during bad moods.
