ACKNOWLEDGMENT

At the very outset I would like to express my heartfelt thanks and gratitude to my supervisor Prof. Desmond L. Kharmawphlang for not only being my guide but for inspiring and supporting me in all possible ways to work on Khasi riddles. Thank you sir for putting the challenge before me and for all the help and encouragement you have rendered to me through these years in spite of your busy schedule. I owe an enormous debt of gratitude for your faith in me and the belief that this work on Khasi riddles is a worthwhile and valuable one.

My sincere gratitude and appreciation to all my informants Mr. R. Tongper, S.M Tongper, R. Pasweth, S. Passah, B.L. Nongbri, Elishon, Cornelius, Korbar Singh, S. Khongkliam, Wanda, B. Khwai, S.L. Gadiang, H.Pohsnem and many others whose name I have failed to mention.

I am also grateful to my superiors in the Education Department, Govt. of Meghalaya as well as to my colleagues especially our Vice-Principal Mrs. C. Hayong, and N. Tongper, J.B Manners, J.D. Sumer, R. Sumer, E.S. Chen and others who had always been there for me to share and shoulder my responsibilities over these past five years whenever the need arose.

My appreciation and thanks to my husband, Mr. K. Nipuni Mao for always being there for me whenever I needed help. His comments, constructive criticism,
encouragement and help in type-setting the computer work have made my work easier.

I would also like to express my thanks and appreciation to all the faculty members, staff, and research scholars of our Department especially Pynshai, Bada and Betty for all their help and encouragement while writing this thesis. My heartfelt thanks to my friends Naro, Pethe, Donna, Arundhati, Stella and Shewali for their support and concern.

I owe an enormous debt of gratitude and appreciation to my parents (Late) B.L. Tongper and Mrs. N. Lanong for their love, prayers, support and encouragement during the time of my research, especially my father, who had sometimes accompanied me during my fieldwork when he was alive. My love and thanks to all my brothers and sisters for always being there for me and their involvement in my research work in one way or the other.

I would also like to thank the students, youth and friends in my Internet and SMS riddle groups for circulating and giving me plenty of data which in the end enabled this thesis to see the light of the day. Without their cooperation and support it would have been very difficult for me to obtain the internet and SMS riddle data.

Above all my greatest gratitude and thanks to God, the Almighty for the guidance, help and strength that enables me to complete this research work.
