A Note on Documentation

The MLA Handbook for Writers of Research Papers-Sixth Edition has been followed in citing and documenting the reference material used in the thesis. The poetry collections mentioned below have been used as primary sources for the study:

The title of the poem of the respective poet and the page number of the respective anthology are given in parenthesis at the end of the poem quoted in the body of the text and in case of the title given prior to the poem quoted, the page number alone is given in parenthesis. And, the list of references of these citations is given as endnotes at the end of every chapter. Regarding the Internet sources, the URL of the respective website is cited in parenthesis in the text, and is included in the list of Endnotes and Works Cited. Also, at the end of the thesis the list of both Works Cited and Works Consulted is given.
