I feel very much short of words to express my deepest sense of gratitude to Dr. P.P. Wamanan, M.Sc., (Agri.), D. Phil, Professor of the Department of Agricultural Botany, Gauhati University, for suggesting this problem and also for his able guidance, constant supervision, continued encouragement and inspiration throughout the research work.

I am grateful to Dr. N. Das, Professor (Retd.) & Head of the Department of Agricultural Botany, Gauhati University for providing laboratory and farm facilities to me. Thanks are also due to other workers of the farm for their help in carrying out the field experiments.

I offer my thanks to the teachers and research scholars of the Department of Agricultural Botany, Gauhati University for their help and suggestions.

I am extremely grateful to Dr. B. C. Borthakur, Director of research and extension, A.A.U., Mr. A.K. Borthakur, plant Breeder of the Pulse Research Station Shillongani, Nagaon, Mr. P.K. Das, Public Analyst, P.H. Laboratory, Assam, Mr. J. Das, A.E.O., Mr. P. Goswami, Mrs. P. Goswami, Mr. B. Saikia, Mr. B. Goswami, Mr. H. Bora and Mr. S. Deka, for their help and inspiration.

Credit goes to Mr. N. Das, for typing the manuscript.

Lastly, I am immensely indebted to my father Mr. S.C. Choudhury and other family members who inspired me in taking up this investigation.
