I also thank the enumerators and local helpers without whose assistance the conduct of the survey and collection of field data would not have been possible.

This work would not have been materialised but for the encouragement of my father, brother and sister. It was my husband, Shri.K.P.M.Rawther, who prompted me to take up this task and he remained motivating throughout the course of the work. I express my affectionate gratitude to my daughters Ashitha and Aneeta and my son-in-law Salam for the loving support, useful suggestions and co-operation. I will be failing in my duty if I do not register my gratitude to Ajmal Ali for providing computer-related assistance.

Above all, my heart goes out in profound gratitude to God Almighty, for endowing me with courage and confidence for tiding over several personal hurdles and enabled me to complete the work.

I respectfully dedicate this thesis to my revered mother, late Sainaba Sulaiman.
