## INDEX OF TABLES

| Table - 1 | Distribution of floodplain wetlands in India. | 2 |
| Table - 2 | Fishery Resources in North-Eastern Region | 11 |
| Table - 3 | Hydrotopographic measurement of the wetlands. | 28 |
| Table - 4(a) | A summary of the physicochemical characteristics of water (January 2005 – December 2007). | 33 |
| Table - 4(b) | Monthly variation of Dissolved oxygen (DO) (January 2005 – 2007). | 34 |
| Table - 4(c) | Statistical analysis of physicochemical (DO) parameter showing mean, standard deviation (SD), standard error (SE), ranges etc. (January 2005 – December 2007). | 35 |
| Table - 4(d) | Monthly variation of free $CO_2$ (January 2005 – December 2007). | 35 |
| Table - 4(e) | Statistical analysis of physicochemical (free $CO_2$) parameter showing mean, standard deviation (SD), standard error (SE), ranges etc. (January 2005 – December 2007). | 36 |
| Table - 4(f) | Monthly variation of Hardness of water in Closed and Open type wetlands (January 2005 – December 2007). | 37 |
| Table - 4(g) | Statistical analysis of physicochemical (Hardness of water) parameter showing mean, standard deviation (SD), standard error (SE), ranges etc. (January 2005 – December 2007). | 38 |
| Table - 4(h) | Monthly variation of Turbidity of water in Closed and Open type wetlands (January 2005 – December 2007). | 39 |
| Table - 4(i) | Statistical analysis of physicochemical (Turbidity of water) parameter showing mean, standard deviation (SD), standard error (SE), ranges etc. (January 2005 – December 2007). | 39 |
| Table 4(j) | Monthly variation of the pH of water in Closed and Open Beels (January 2005 – December 2007). | 41 |
Table 4(k) Statistical analysis of data (Closed and Open Beels, pH of water)  
Table 4(l) Statistical analysis temperature of water (at 12 cm depth) in Closed and Open Beels (January 2005 - December 2007).

Table -4-(m) Analysis of data (Temperature of water) in Closed and Open Beels (mean, standard deviation, standard error etc.).

Table 5(a) A summary of soil parameters showing the ranges, means and standard deviation etc. in the Closed and Open Beel (January 2005 - December 2007).

Table 5(b) Monthly variation of Soil pH during in Closed and Open Beels (January 2005 - December 2007).

Table 5(c) Statistical analysis of Soil pH in Closed and Open Beels (January 2005 - December 2007).

Table 5(d) Monthly variation of Soil moisture in Closed and Open Beels (January 2005 - December 2007).

Table 5(e) Statistical analysis data of soil moisture in Closed and Open Beels (January 2005 - December 2007).

Table 5(f) Monthly variation of Phosphate contents of soil (January 2005 - December 2007).

Table 5(g) Statistical analysis of Phosphate contents of soil (January 2005 - December 2007).

Table 5(h) Monthly variation of Nitrite contents of soil in the Closed and Open Beels (January 2005 - December 2007).

Table 5(i) Monthly variation of Nitrate contents of soil in Closed and Open Beels (January 2005 - December 2007).

Table 5(j) Statistical analysis of Nitrite contents of soil in Closed and Open Beels (January 2005 - December 2007).

Table 5(k) Statistical analysis of Nitrate contents of soil during in Closed and Open Beels (January 2005 - December 2007).

Table 5(m) Statistical analysis data of organic carbon contents of soil of Closed
and Open Beels in Closed and Open Beels (January 2005 – December 2007).

Table 6(a) Monthly variation of Phytoplankton in Open and Closed Beels (January 2005 - December 2007).

Table 7(a) Monthly variation of Zooplankton in Closed and Open Beels (January 2005 - December 2007).

Fig. 4.1 Monthly variation of the Macrophytes (biomas) in Closed and Open Beels (January 2005 - December 2007).

Table 9(a) Meteorological data (2005).

Table 9(b) Meteorological data (2006).

Table 9(c) Meteorological data (2007).

Table 9(d) Statistical analysis Meteorological (temperature) parameter showing means, standard deviation (SD), standard error (SE), ranges etc. (January 2995 - December 2007).

Table 9(e) Statistical analysis the environmental(humidity) parameter showing means, standard deviation(SD),standard error (SE),ranges etc. (January 2995 - December 2007).

Table 9(f) Statistical analysis the environmental (rainfall) parameter showing means, standard deviation (SD), standard error (SE), ranges etc. (January 2995 – December 2007).

Table 9(g) Statistical analysis the environmental (of light intensity) parameter showing means, standard deviation (SD), standard error (SE), ranges etc. (January 2995 - December 2007).

Table 10 Primary and Net productivity of the Closed and Open type wetlands (January 2005 – December 2007).

Table 11(a) Correlations

Table 12 (a) Status of the Ichthyospecies of the Nahotia (Open Beel) and Potiasola (Closed Beel) wetlands. Critical Endangered (CR),
