</table>
Seasonal variation of water of temperature °C in the Closed and Open Beel (January 2005 -December 2007).

The Curve showing mean, standard deviation, range etc. of water temperature in the Closed and Open Beel (January 2005 -December 2007).

Seasonal variation of Soil pH in the Closed and Open Beels (January 2005 -December 2007).

Graphical representation of Soil pH along with mean, standard, range etc. (January 2005 -December 2007).

Seasonal variation of Moisture content in the Closed and Open Beels (January 2005 -December 2007).

Graphical representation of Soil Moisture along with range, mean, standard deviation etc. in the Closed and Open Beels (January 2005 -December 2007).

Seasonal variation of Phosphate content in the Closed and Open Beels (January 2005 -December 2007).

The Curve showing mean, standard deviation, range etc. of data Phosphate content in the Closed and Open Beel (January 2005 -December 2007).

Seasonal variation of Nitrite content in the Open and Closed Beels (January 2005 -December 2007).

Seasonal variation of Nitrate content (mean, standard variation, range etc.) in the Open and Closed Beels (January 2005 -December 2007).

Seasonal variation of Nitrate in the Closed and Open Beels (January 2005 -December 2007).

the curve showing mean, standard deviation, range etc of the Nitrate content (January 2005 -December 2007).
Figure - 2.12  Seasonal variation of Organic carbon in the Closed and Open Beels in (January 2005 –December 2007).

Figure - 2.13  Graphical representation of the Organic carbon content (mean, range, standard deviation etc.) in the Closed and Open Beels (January 2005 –December 2007).

Figure - 3.1  Seasonal variation of the Phytoplankton in the Open Beels (January 2005 –December 2007).

Figure - 3.2  Seasonal variation of the Phytoplankton in the Closed Beel in (January 2005 –December 2007).

Figure - 3.3  Comparison of the Phytoplankton in between Open and Closed Beels (January 2005 –December 2007).

Figure - 3.4  Seasonal variation of the Phytoplankton (mean, standard deviation etc.) in the Closed and Open Beels (January 2005 –December 2007).

Figure - 3.5  Seasonal variation of Zooplankton in the Open Beel in (January 2005 –December 2007).

Figure - 3.6  Seasonal variation of Zooplanktons in the Closed Beel (January 2005 –December 2007).

Figure - 3.7  Comparison of Zooplanktons in between Open and Closed Beels (January 2005 –December 2007).

Figure - 3.8  Seasonal variation of Zooplankton (mean, range etc.) in the Closed Beel (January 2005 –December 2007).

Figure - 3.9  Seasonal variation of Zooplankton (mean, range etc.) in the Open Beel (January 2005 –December 2007).

Figure - 4.1  Monthly variation of the Macrophysics (biomass) in Closed and Open Beels (January 2005 - December 2007).

Figure - 4.2  Dry weight (mean, range etc.) of the Macrophysics in Closed and Open Beels in (January 2005 –December 2007).

Figure5(1-3)  Variation of Temperature in the Closed and Open Beels (January 2005 – December 07).
Variation of Temperature (range, mean etc.) in the Closed and Open Beels during (January 2005 – December 07).

Seasonal variation of humidity in the Closed and Open Beel (January 2005 – December 07).

Variation of Humidity (range, mean etc.) in the Closed and Open Beel (January 2005 – December 07).

Rain fall in the Closed and Open Beel

Variation of light intensity in the Closed and Open Beels (January 2005 – December 07).

Statuses of the Ichthyospecies

Fish production in the Nahotia Potiasola wetlands (January 2005 – December 07).

Fish catch statistics in the Nahotia Potiasola wetlands (January 2005 – December 07).

Fish production in the Nahotia Potiasola wetlands (January 2005 – December 07).

Fish production in the Nahotia Potiasola wetlands (January 2005 – December 07).

Production of air breathing fishes in the Closed Beel (January 2005 – December 07).

Production of air breathing fishes in the Open Beel (January 2005 – December 07).

Fish production in the Nahotia Potiasola wetlands (January 2005 – December 07).
