ACKNOWLEDGEMENTS

I would like to convey my cordial and intense sense of gratefulness to my mentor and guide, Dr. P. G. Giridhar, Principal Scientist, Plant Cell Biotechnology Department, CFTRI, for his valuable guidance, invariable regulation, unstained assistance and support. I am truly beholden to him for his gentle, godly nature passive attitude and for the self-determination to follow my unambiguous goals in his laboratory. He made my life precious and confidential with his valuable ideas towards research and make me handle a individual project on my own hand. There is no word to tell about him because of his uncountable support toward my career without his efforts, it is improbable for me to complete my thesis.

My Sincere gratitude for Dr. Sakina Khatoon, Retired Senior Principal Scientist who guided fundamental research skills when I was working as a project assistant (Lipid Science and Traditional Food department). She made me rigid and honest towards research work.

I thank for Former Director Dr. V. Prakash and current Director Prof. Ramrajshekharan CFTRI for having provided me an opportunity to work in CFTRI. I also would like to thank the staffs of organization, of CFTRI, who were very compassionate to me for the administration procedure to be carried out in a soft approach.

My sincere thankfulness to Dr. G. A. Ravishankar retired Chief Scientist and former Head, Plant Cell Biotechnology Department, CFTRI for his support, motivation and important suggestions for the study. Generous admiration to Dr. Bhagyalakshmi N. Head, Plant Cell Biotechnology for her systematic supervision as well as concerns.

I thank Dr. Jagan Mohan Rao and Dr. Rama Lakshmi for their gracious and adoring guidance in PPSFT Department CFTRI and also thank to Dr. K. Basavaraj Head Quality Control Division Coffee Board Gov. of India Bangalore, to carry coffee research work in Roasting and Brewing methods without their help and support it will be difficult to complete my project work.

I show gratitude to all the scientists of PCBT Dr. R. Sarada, Dr. Nandini Prasad Shetty, Dr. V. S. Chuhan and for their support and facilitate during my reside.

I am thankful to Department of Science and Technology, New Delhi Government of India for award as Women Scientist (DST Fellow) project to me and their facilitated to work in CFTRI by handling an individual project to carry my research work smoothly without any financial troubles.
I am thankful to the staff of other Departments- **Stores and Purchase section, Administration, FOSTIS, HRS, Canteen, Health Centre** and **Security** for their help rendered during various stages of my research period.

I am grateful the staff of **Central Instrument Facility**, especially **Mr. Mukund Laxman, M. Asha** for their kind assistance in HPLC and LC-MS studies, I also thank the staff of **Computer centre and library** for being very kind and cooperative.

I express gratefulness to my devoted **Husband** who motivated me to carry my PhD journey and help in every aspect with patiently encouraging me and love to my sweet little son **Nandu** who has been very cheerful to me with lots of smile and heartening. I express gratitude to my **Brother** for the love, care and encouragement given for the study. He supported me and consoled me when I faced difficult situations during the course giving me valuable suggestions. I thank my **Father** and **Mother** who gave lot of encouragement in each and every moment.

Thanks to God Almighty for making me what I am today- a stronger, aptitude, patience, courage and potential personality.

V.Sridevi
