ACKNOWLEDGEMENT

At the outset, I am grateful to my research guide Dr. Amarendra Nath Talukdar, Professor, Department of Physics, Gauhati University for his constant guidance and scrupulous supervision on my research work from the very beginning to the end of the investigation, which caused immense inspiration to complete my research work.

I am also grateful to my other research guide Sri K.C. Medhi, Reader (Rtd.) of the Department of Physics, Gauhati University for his valuable guidance and his encouragement during the period of my research work.

It will not be completed without mentioning the names of Prof. S. Jois and Prof. M.N. Bora who were Heads of the department of Physics at the relevant time and also Prof Minakshi Devi, present Head of the Department of Physics, Gauhati University, who have encouraged me by giving an opportunity to avail the facilities of Laboratory and Library works. Hence I express my sincere gratitude to them in this column.

I express my gratitude to Prof S.K. Mazumdar Retired Professor of Saha Institute of Nuclear Physics, Calcutta, who encouraged me to go ahead on my research work by giving his valuable advice through discussions at the cost of his precious time.

I am grateful to Prof. S.K. Bhattacharjee and Prof. P.J. Das of Chemistry Department, Gauhati University, who helped in my research work by providing me with some crystal samples.

I express my sincere gratitude to Bio-Physics Department, AIIMS, New Delhi for providing me three-dimensional intensity data of the crystal samples.

My sincere gratitude goes to Prof. A.K. Banerjee, Chairman, Bose Institute Calcutta who inspired me on my research work by giving an opportunity to avail computer and library facilities in the Bose Institute.
It is a great pleasure to have an opportunity to express my gratefulness through this writing to Sri Asim Kr. Bera, Bose Institute, Calcutta, Sri Pratyush Purkayastha and Sri Sanjib Karmakar of Gauhati University for their kind help in computation and diagrams.

I am grateful to Dr (Mrs) Salima Shoukat Hannan, Sr. Lecturer (Retd), Assam Engineering College, for her valuable suggestions.

I offer my gratefulness to Sri P.M. Dastidar, Principal (Retd) Pragjyotish College, Guwahati for his encouragement and help in this work. I am also grateful to Mr. Pranab Kr Das, Head of the Department of Physics, Pragjyotish College, Guwahati and my esteemed colleagues of the Department for their encouragement and active co-operation, without which it would not have been possible to complete this work.

I must be grateful to Dr B.N. Roychoudhury, the then Jr Secretary, University Grant Commission, NER, Guwahati for helping me to avail minor research project under the UGC.

I am also thankful to Mr. Joy Mondal and Mr. Mohitosh Paul for Computer typing and designing of this thesis.

I am grateful to all the members of my family in general and to my husband Mr T.C. Chutia in particular who constantly encouraged me during the period of my research work and took lots of pain in completing my thesis. I shall ever remain grateful to my respected parents for their encouragement and blessings showered upon me.

Mrinalini Das Chutia
Sr. Lecturer, Department of Physics
Pragjyotish College, Guwahati-9
