ACKNOWLEDGEMENT

The work entitled "Genetic Variation Studies of some of the Commercially important Orchids of Cachar District of Assam" was undertaken under the guidance and supervision of Dr. G. Bhowmik, Professor and Head of the Deptt. of Biotechnology, Gauhati University. During the period of study I have always been advised and supervised by him in every step. But for his able guidance this work would not have been possible. My sincere and deep sense of gratitude to him for accepting me as a Ph.D. student and selecting the topic of the work.

I wish to convey my gratitude to Dr. S. Chowdhury, former Head of the Deptt. of Botany, Gauhati University for his inspiration and valuable suggestion in carrying out my research work.

I am thankful to Professor G.D. Sharma, former Head of the Deptt. of Life Science, Assam University, Silchar for providing me the facilities available in the departmental laboratory. Indeed my grateful thanks to Mrs. Sujata Bhattacharjee, Sr. technical assistant of the said department for her cooperation during the course of laboratory work. I am thankful to Mr. Sabyasachi Sinha, D.F.O., Social Forestry, Cachar for his sincere help in securing the necessary permission in surveying the reserved forests of Cachar district. I convey my gratitude to Mrs. Ajanta Das, Director the British Institute, Sichar for offering me the scope to process my thesis at her Computer Lab. at Silchar.

I am also indebted to my colleague Sri Sanjeeb Deblaskar for his regular inspiration. I am thankful to Principal and colleague in M.H.C. H.S. School, Sonabarighat, Cachar and to all those who are directly or indirectly involved in the successful completion of this work. Lastly, I am thankful to my friend Sukharanjan Roy who sincerely cooperated me in taking print out of my Thesis at his Cachar Commercium Computer lab. at Netaji Subhash Avenue, Silchar.
