ACKNOWLEDGEMENTS

I am immensely grateful to Professor G. C. Das, Plasma Physics Division, Institute of Advanced Study in Science & Technology, Guwahati-781 022, for his encouraging guidance, fruitful suggestions and exciting discussions throughout the preparation of the thesis. It would not have been possible to complete this work within a short period without his continuous source of inspiration and dynamic guidance.

Thanks are due to the authorities of Institute of Advanced Study in Science & Technology, Guwahati-781 022, for providing me excellent hospitality as well as other facilities to carry out the research for the Ph. D. degree in Plasma Physics Division under the supervision of Professor G. C. Das. I further thank to Professor Joyanti Chutia, and to all other Plasma Physicists for providing me the congenial atmosphere to continue my research works in the Plasma Physics Division.

I would like to extend my sincere thanks to Sri P. D. Kalita, Principal of R. G. Baruah College for giving me the permission to upgrade my education through the research works.

I gratefully acknowledge the University Grants Commission for financial Assistance under the Minor Research Project in Science.

In addition I am grateful to Professor Rajkumar Roychoudhury, Physics and Applied Mathematics Unit, Indian Statistical Institute, Calcutta-700035 and Yi-Tian Gao, Department of Applied Mathematics and Physics, Beijing University of Aeronautics and Astronautics, Beijing, China, for time to time correspondences and their kind help to do critically some of the problems incorporated in this thesis.
I am thankful to Professor B. C. Kalita, Department of Mathematics, Gauhati University and my friends and colleague Dr. K. S. Goswami, Dr. N. Devi, Mr. Ajit Talukdar, Mr. Bubu Bhuyan, Mr. A. Barman, Mr. N. Bhagaboty, Ms. L. B. Mahanta, Mr. Shuvam Sen and Mr. M. K. Sarma for their friendly co-operation during the preparation of the thesis.

It is a pleasure for me to express my gratitude to my parents who inspering me throughout my carrier.

Acknowledgement will be incomplet if I do not owe a word of gratitude to Ms. C. Das and Miss Megha Das of Guwahati for their warm hospitality during various stages of this research work.

Date: 25 February 2001

(Jnanjyoti Sarmah)
