ACKNOWLEDGEMENTS

First of all, with deep sense of gratitude, I offer my sincere thanks to my guide Dr. Krishna Gopal Bhattacharyya, Professor and Head, Department of Chemistry for his valuable guidance, constant supervision, encouragement and sustained support during the entire period of this study.

Many persons have rendered help in carrying out this piece of work in different aspects. It is a great pleasure to thank them all through this column.

My thanks and gratefulness is due to Dr. Dulal Goswami, Professor and Head, Department of Environmental Science for his generous support throughout the study period.

I thank the succeeding heads in the Department of Chemistry Dr. Saibal Bhatta, Dr. Akhil Medhi and Dr. Krishna Gopal Bhattacharyya for providing facilities of the laboratory in the department of Chemistry and valuable suggestions during the period of this work. I am grateful to all other teachers of the department of chemistry for their helpful suggestions and support.

I also thank Dr. Lakhinandan Borah, Chairman of the Pollution Control Board, Assam for his encouragement and support during the study period

It was a joy to be working with the research scholars in the department of Chemistry, Gunin Choudhury, Hitesh Das, Bijoy Goswami, Arunima, Kabita, Smritisikha, Montushi, Gitali, who were talented, objective and co-operative. I thank them all for their friendly spirit.

My thanks are due to my colleagues at the Pollution Control Board, Assam for their support and suggestions during the study period.
At home, this work would not have been possible without the inspiration and blessings of my mother. With profound respect I offer my thanks to her.

My husband, who is supportive and offered constant help in carrying out this piece of work deserves my thanks and gratefulness. My two sons Ryan and Ivan also deserve my thanks for their co-operation.

Lastly, I salute my late father who expired during the period of study, and who was the source of constant inspiration and support in my life.

Rafiqua Ahmed,
