CONTENTS

PART I
Background

CHAPTER 1 : INTRODUCTORY
Railway Development and Economic Growth
Economic Geography of Assam
Nature of Commodity Flow

CHAPTER 2 : DEVELOPMENT AND RELATIVE ROLE OF ALTERNATIVE MODES OF TRANSPORT IN ASSAM : A COMPARATIVE STUDY
River Transport
Road Transport
Air Transport
Pipelines
Other Modes of Transport

CHAPTER 3 : DEVELOPMENT OF RAILWAYS
Background
Eastern Bengal Railway
Dibru Sadiya Railway
Assam Bengal Railway (Chaparmukh Silghat Railway; Bengal and Assam Railway)
Jorhat Provincial Railway
Tezpur Balipara Railway
Cherra-Companyganj State Railway
Post-independence Era : Assam Railway, North Eastern Railway and Northeast Frontier Railway
PART II
Impact

CHAPTER 4: RAILWAYS AND AGRICULTURE
Early Years: Area Under Cultivation, Supply of Input, Marketing Facilities
Movement of Produce of Agriculture: Jute, Rice and Paddy, Timber
Special Rates for Produce of Agriculture
Import of Food-stuffs
Agricultural Areas with New Railway Extensions
Freight Traffic and Agricultural Production

CHAPTER 5: RAILWAYS AND INDUSTRY
Facilitating Role - Specific to Tea Industry
Growth of Various Industries
Railway and Motor Vehicle Workshops: Some Aspects
Expansion Through Better Technology
Reduced Cost of Transporting Inputs to Industries
Impact on Small and Miscellaneous Industries: Recent Years
Movement of Products of Industries: Coal, Tea, Oil
Impact on Development Projects: Movement of Cement, Iron and Steel, Heavy Machinery
Import of Essential Food Items
Impact of Railway Sidings
Role of State Machinery
Sector-wise Analysis of Rail Traffic
Freight Traffic and Industrial Production

CHAPTER 6: IMPACT ON TIME ELEMENT, SPATIAL DISTRIBUTION OF ACTIVITIES AND PRICES
Time Element
Spatial Distribution
Prices

CHAPTER 7: IMPACT ON POPULATION AND INCOME 251

Population
Railways and Mobility
Employment: Direct and Indirect
Impact on Non-economic Aspects of Life
Recent Developments.
Income
Passenger Traffic in Assam: Recent Years
Passenger Mobility and State Income
Freight Traffic and Economic Trends

PART III
Constraints

CHAPTER 8: RAILWAY FREIGHT RATES IN ASSAM 289

Cost of Transport
Railway Freight Structure: Pre-independence Era
Steamer Freight Rates Before and After 1947
Railway Freight Rates Since Independence
Freight Rates For Development of Industries
Transport Subsidy Scheme

CHAPTER 9: COMPETITION AND COORDINATION 335

Competition in Early Days: River-Rail and Rail-Road Competition
Competition in Recent Years
Review of Competition in Selected Traffic
Coordination: Early Attempts
Coordination: Recent Measures
Out-Agencies
CHAPTER 10: CONSTRAINTS AND RAILWAY OPERATIONAL EFFICIENCY

Constraints: Booking Restrictions, Floods and Breaches, Finance - Uneconomic Lines, Transhipments, Claims

Operational Efficiency: Line Capacity, Centralised Traffic Control System, Density of Traffic, Total Loading, Gross Load Per Train, Average Wagon Load During the Run, Wagon Usage, Empty Wagon Haulage, Turn-round of Wagons, Net Tonne Kilometres Per Engine Hour, Shunting Kilometres per Train Kilometre, Punctuality of Passenger Trains, Accidents, Repair Facilities

PART IV
Future

CHAPTER 11: SCHEME FOR INCREASING RAILWAY FACILITIES

Need For A Scheme: Persistence of Transport Gap, Regional Variations in Rail Facilities, Other Causes of High Transportation Demand

Construction of New Lines

Review of Railway Standpoint

Snags in Cost-Benefit Analysis

Improvement of Existing Facilities

Measures To Reduce Strain On Railways

Role of Government and Business Community

EPilogue

APPENDICES

BIBLIOGRAPHY
