**LIST OF TABLES**

<table>
<thead>
<tr>
<th>Table No.</th>
<th>CONTENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>1A (i)</td>
<td>Qualitative and quantitative composition (percentage) of gut content of <em>P. hamrur</em> male (September 2005- May 2006)</td>
</tr>
<tr>
<td>1A (ii)</td>
<td>Qualitative and quantitative composition (percentage) of gut content of <em>P. hamrur</em> female (September 2005- May 2006)</td>
</tr>
<tr>
<td>1B (i)</td>
<td>Qualitative and quantitative composition (percentage) of gut content of <em>P. hamrur</em> male (September 2006- May 2007)</td>
</tr>
<tr>
<td>1B (ii)</td>
<td>Qualitative and quantitative composition (percentage) of gut content of <em>P. hamrur</em> female (September 2006- May 2007)</td>
</tr>
<tr>
<td>2A (i)</td>
<td>Percentage occurrence of food items in different size groups of <em>P. hamrur</em> – male (September 2005- May 2006)</td>
</tr>
<tr>
<td>2A (ii)</td>
<td>Percentage occurrence of food items in different size groups of <em>P. hamrur</em> – female (September 2005- May 2006)</td>
</tr>
<tr>
<td>2B (i)</td>
<td>Percentage occurrence of food items in different size groups of <em>P. hamrur</em> - male (September 2006- May 2007)</td>
</tr>
</tbody>
</table>
2B (ii) Percentage occurrence of food items in different size groups of *P. hamrur* – female (September 2006- May 2007)

3 A (i) Percentage occurrence of *P. hamrur* in various degree of fullness of stomach - male (September 2005- May 2006)

3 A (ii) Percentage occurrence of *P. hamrur* in various degree of fullness of stomach - female (September 2005- May 2006)

3 B (i) Percentage occurrence of *P. hamrur* in various degree of fullness of stomach - male (September 2006- May 2007)

3 B (ii) Percentage occurrence of *P. hamrur* in various degree of fullness of stomach - female (September 2006- May 2007)

3C (i) Percentage occurrence of feeding intensity in different size groups of *P. hamrur* – male (September 2005 - May 2006)

3C (ii) Percentage occurrence of feeding intensity in different size groups of *P. hamrur* – female (September 2005 - May 2006)

3D (i) Percentage occurrence of feeding intensity in different size groups of *P. hamrur* – male (September 2006 - May 2007)

3D (ii) Percentage occurrence of feeding intensity in different size groups of *P. hamrur* – female (September 2006 - May 2007)

4 Details of month wise catch (kg) of bulls eye during September 2005 – May 2007 along Dakshina Kannada coast.

5 A Sum of squares and cross product of log length and log weight for male and female of *Priacanthus hamrur* (September 2005 – May 2006)

5 B Sum of squares and cross product of log length and log weight for male and female of *Priacanthus hamrur* (September 2006 – May 2007)

6 Analysis of co-variance for comparison of length-weight relationship of male and female *P. hamrur*

7 A Seasonal variations in relative condition factor (K_n) of *Priacanthus hamrur* (September 2005-May 2006)

7 B Seasonal variations in relative condition factor (K_n) of *Priacanthus hamrur* (September 2006-May 2007)

8 A Mean values of relative condition factor (K_n) of different size groups of
*Priacanthus hamrur* (September 2005 - May 2006)

8 B Mean values of relative condition factor ($K_n$) at different size groups of *Priacanthus hamrur* (September 2006 - May 2007)

9 Ova diameter (mm) in different maturity stages

10 A Month-wise percentage of gonads in different stages of maturity of *Priacanthus hamrur* (September 2005 - May 2006)

10 B Month-wise percentage of gonads in different stages of maturity of *Priacanthus hamrur* (September 2006 - May 2007)

11(A) Percentage occurrence of different stages of maturity in relation to different size groups of *Priacanthus hamrur* September 2005 – May 2006)

11(B) Percentage occurrence of different stages of maturity in relation to different size groups of *Priacanthus hamrur* (September 2006 – May 2007)

12 Estimation of size at first maturity by cumulative percentage frequency curve

13 A (i) Computation for estimation of mean size at first maturity of *Priacanthus hamrur* with confidence limits – male (September 2005-May 2006)

13 B (i) Computation for estimation of mean size at first maturity of *Priacanthus hamrur* with confidence limits – male (September 2006 - May 2007)

14 B Monthly variations in the gonado-somatic index of *Priacanthus hamrur* (September 2006 - May 2007)
15 Number of mature ova in individuals of *Priacanthus hamrur*
16 Monthly sex-ratio of *Priacanthus hamrur* (September 2005-May 2007)
17 (A) Sex-ratio in different size groups of *Priacanthus hamrur* (September 2005-May 2006)
17 (B) Sex-ratio in different size groups of *Priacanthus hamrur* (September 2006-May 2007)
18 (A) Length-frequency (percentage) distribution of *P.hamrur* in various months- male (September 2005 - May 2006)
18 (B) Length-frequency (percentage) distribution of *P.hamrur* in various months-female (September 2005 - May 2006)
18 (C) Length-frequency (percentage) distribution of *P.hamrur* in various months-male (September 2006 - May 2007)
18 (D) Length-frequency (percentage) distribution of *P.hamrur* in various months-female (September 2006 - May 2007)
19 Estimated mean length (cm) of male and female of *Priacanthus hamrur*
20 The growth parameters of *Priacanthus hamrur* obtained by different methods during the period September 2005 - May 2007
21 A **Length – converted catch (Thompson and Bell Analysis) of *P. hamrur***
21 B Total mortality (Z), natural mortality (M), fishing mortality coefficient (F) and exploitation ratio (E)
22 The exploitation ratio, yield per recruit and biomass per recruit for *Priacanthus hamrur*
23 Biomass, yield and fishing effort multiplier of *Priacanthus hamrur*
