ACKNOWLEDGEMENT

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. During the journey of my research work I have been accompanied and supported by many people. It is a pleasant moment that I have now the opportunity to express my gratitude for all of them. However, to complete a research project like this magnitude requires a network of support, and I am indebted to many people.

I take this opportunity to express my profound gratitude and deep regards to my guide Dr. Madanmohan Singh Khalsa (sir) for his exemplary guidance, monitoring and constant encouragement throughout the course of this thesis. The blessing, help and guidance given by him time to time shall carry me a long way in the journey of life on which I am about to embark.

I thank almighty GOD for flourishing all the blessing on me and taking care of me at all the time, I would also like to thank my parents, Adv. Sangu Shankarao (Rted. Dy.S.P) father and Sangu Suguna mother, for their affection, moral support and providing all the amenities for the completion of my work. It would be meaningless if I do not remember my sisters, relatives and friends for their constant encouragement without which this assignment would not be possible, and last name in this list of relatives but first to my heart my wife Sangu Swetha for standing beside me all the time.

I am also obliged to the staff members, Chancellor, Vice-chancellor & Registrar. They have motivated and inspired from the beginning of this work. I express my heartiest thanks to all Ph.D. coordinators of Shri Jagdish Prasad Jhabarmal Tibrewala University, Vidyanagari, Chudela, Jhunjhunu, for the valuable information provided by them in their respective fields. I am grateful for their cooperation during the period of my assignment.

I sincerely owes thanks to the authors and researchers whose publications and contribution have been utilized by me in this research.

Sangu Amar  
Research Scholar
