ACKNOWLEDGEMENTS

I thank Dr. K.A. Kumar, Prof. of Psychiatry, Director of Medical Education, Govt. of Kerala the supervisor for his valuable suggestions, constructive criticism and never-failing encouragement. His willing assistance has contributed much to the successful completion of the work.

I thank Ms. Shanti Ranganathan, Hony. Secretary, TT Ranganathan Clinical Research Foundation, Chennai for giving me thought provoking insights, stimulative interactions and the use of her library while researching for this work.

I wish to place on record my sincere thanks to Dr. V. George Mathew, Ex. Head and Prof. of Psychology, University of Kerala, for permitting me to use the Multiple Group Interaction Technique, IAS Rating Scale and the Mathew Maladjustment Inventory.

I would like to thanks the teachers and school authorities for their co-operation without which the study would never have been possible. The students who were subjected to the psychological interventions and assessments require special thanks for their active participation.

The blessings and support of my parents Dr. C.J. Thampi and Dr. Madhuravally Thampi were the key to the completion of this work I wish to express my heartfelt gratitude to them.

My wife Mrs. Jamila K. Warrier had been of immense emotional and academic support, I wish to thank her for the hints, comments and observations during the thesis writing process.

I must also thank Ms. Sarala for the data entry and word processing work she had done for my thesis.

Lastly I thank all my Professors, friends and well wishers who had helped me during the various stages of my work by rendering their suggestions and co-operation.

ARAVIND THAMPI
