ACKNOWLEDGEMENT

This research work is dedicated to my beloved spiritual masters “OSHO”, (Bagwan Shree Rajneesh), “J.KIRSHNAMURTY”, “RAMAN MAHARSHI”, “RAMKRISHNA”, “MEHAR BABA” and “SHRI VACHESPATI SHAISTRI”. (My revered late father) and respected mother, shrimati ved wati sharma. I express my sincere gratitude to my wife smt. Indra Sharma and my daughter, Prem Veetrag Shrama and my son Shri. Sahajanand Sharma who missed me a lot due to my over involvement with research work during last many years. I am extremely thankful to my guide Dr. N.R. Mrinal, Head of the Psychology Department, Nagpur University who cooperated, helped and guided me in every way. I am thankful to Head of the Psychology Dept. Nagpur University along with its teaching and non-teaching staff. I am especially thankful to all students of P.G.T.D. University campus, Nagpur University with whom I passed my two years of research and self-exploration. I am deeply thankful to my friend Shri. C.R. Anwani and Shri. Nishant Peshwe who worked on computer with sincerity and dedication and over exerted to bring this work into manifestation. I am thankful to my colleague Shri Ajit Deshmukh Head of the Math Dept. of Govt. Vidharbha Institute of Science and Humanities, who remained as my close friend, philosopher and guide during this research work. I had so many exploring and inspiring discussions with him, which helped me a lot to reach to understanding of various religious concepts, viewpoints, ideas and ideologies.
This research study was a spontaneous creative process, every day new facts were being discovered. It was as subtle and as complex as my own life. It was a process of self discovery, every moment new avenues were opening to my vision and perception. I wish to express my sincere gratitude to the infinite expanse life itself which was shaping every moment of existence in its own unique way. Constantly there were new challenges and to meet out those challenges there was an upsurge of equally great potential of energy and awareness from deepest core of one's being of one's essential self which is actually "No-self" an egoless state of "No mind". This research is a result of the "The Hidden Harmony" of a spiritual actual self therefore, there is no self assertion regarding it's creation. Actually I was just instrumental in the entire research process therefore, it has a fragrance of creative spontaneity. As it was a living process I was never in hurry about it otherwise my anxious state of consciousness could have spoiled the entire painting.

The creative flood can never be in control of human self because ultimately human self is not just a mental concept but awareness exists as eternal, beyond time and space. Finally I am tremendously thankful to the very existence and it's essential truth. Specifically I am greatly thankful to my bosom friend 'Shri Shrikant Pande', whose co-operative existential support was must for the completion of this work. I am thankful to my elder brother 'Prof. Udayan Sharma' Head of the department Hindi Dept. K.L. College of arts and commerce, Amravati who motivated me very strongly on every occasion of our meeting that I should complete this project by earliest. I am thankful to my
brothers and sisters who always enquired about my research work and motivated me to complete this project. I am also thankful to my friends and colleagues. My perception is clear that every creation takes its own time due to its ‘uniqueness’ or ‘novelty’. This way, this research work has also taken its own time. In the end, I am extremely thankful to my guide Dr. N.R. Mrinal Head of the Psychology Deptt., Nagpur University, without whose constant insistence and inspiration this work would not possibly be materialized. Actually he was far more active and I was rather passive without his gracious acceptance and guidance it could not be materialized.

Once again I pay my hearty gratitude to my beloved enlightened masters “OSHO” (Bhagwan Shree Rajneesh), “J.KIRHSHNAMURTY”, “RAMAN MAHARSHI”, “RAMKRISHNA PARAM HANSE”, “MEHAR BABA” and “SHRI VACHESPATI SHASTRI”.

In the last I am thankful to whole existence that helped me in this creation.

Amravati
