ACKNOWLEDGEMENT

I would like to express my special appreciation and thanks to my advisor, well-wisher, Dr. P. VENKATACHALAM, Professor, Department of Human Genetics, for encouraging my research and allowing me to grow as a research scientist. His advice on both research as well as on my personal career have been priceless. I would like to express deepest gratitude to my guide, who has the approachable and the substance of a genius; he continually and convincingly conveyed a spirit of journey in regard to research and scholarship and an excitement in regard to teaching. Without his guidance, persistent and timely help this dissertation would not have been possible.

I would like to express my thanks to my co-research supervisor and mentor Dr. N. Sanjeeva Reddy, Professor, Department of Reproductive medicine, for constant support, invaluable guidance, encouragement, providing the blood sample, untiring help and unstinted cooperation all through the work which has enabled me in the successful completion of the thesis. His affectionate treatment and unreserved extension of all type of help in the execution of the theses is greatly appreciated.

I am using this opportunity to express my sincere gratitude to Dr. Solomon. F.D. Paul, Professor and Head, Department of Human Genetics, Sri Ramachandra University. I am thankful for his aspiring guidance, invaluably constructive criticism and friendly advice during the work. I am sincerely grateful to him for sharing his truthful and illuminating views on a number of issues related to my work.

I am grateful to Dr. J. Vijayalakshmi, and Dr. V. Vettriselvi, for their constant support and for motivating and encouraging me in several ways to complete my assignment successfully.

I am greatful to my friend Dr. Tamilz Selvan, Dr. Chinna Durai and Dr. Vittal Natarajan for their constant support in completing my research work.

It would like to thank my friend Ms. Gowri, and her overall help, sharing of stationaries, memories and made each day at SRU an enriching experiencing for me.
I would like to thank my research advisory committee member Dr. Alahari Papa Rao, Professor, Department of Physical Anthropology, Sri Venkateswara University, Tirupati, Andhra Pradesh, India for his constant encouragement, support and insightful comments.

I would like to place my gratitude to Dr. S.P. Thyagarajan, Dean (Research), Sri Ramachandra University, for providing me with the opportunity to utilize the infrastructure and resources at the central research facility.

Over the course of my Ph.D., I have been blessed to be associated with a great number of people: Dr. M. Ravi, Dr. V. Ganesh, Dr. Harpreet Kaur, Mrs. Andrea Mary, Mrs. R. Selvi, Ms. Teena Koshy, Mrs. Nadhini, and Mrs. Deepa Parvathi for their constant encouragement and invaluable inputs.

My sincere thanks also go to Research scholars, Ms. Safa Basheer, Mr. Anbarasan, Ms. Sofi beaula Ms. Shruthi, Ms. Akila, Ms. Ganga Baskar, Ms. Mathangi, Ms. Priyanka, Mr. V. R. Karthikeyan, Mr. Hemadev, Mr. Venkateswarlu and Mr. K. Karthik.

I sincerely thank the management of Sri Ramachandra University for allowing me to do my Ph.D. in this esteemed university.

I would like to acknowledge Indian Council of Medical Research, New Delhi for granting me fellowship during my doctoral studies.

My thanks to Dr. Bhaskar, former faculty, Department of Biomedical Sciences, Sri Ramachandra University for his help.

A special thanks to my family. Words cannot express how grateful I am to my brother and sister and my family for all of the sacrifices that they have made on my behalf. Their prayer for me was what sustained me thus far. I would also like to thank all of my friends and relations who supported me in writing, and incented me to strive towards my goal.
