I would like to thank all the people who have been supporting me during the past few years while I have been working on my research activities. In any case activities of this nature always require not only support but also encouragement from different quarters.

Primarily I would like to thank Prof. M. A. Peer, Head P.G Department of Computer Sciences, University of Kashmir, Srinagar, who honored me with his willingness to act as the guide. He has been consistently encouraging me to pursue the research and has been extending all the possible requisite support.

I really fail to get words for expressing my gratitude to Prof. P. Nagabhushan, Chairman Department of Studies in Computer Sciences (DOS in CS), University of Mysore, Mysore who has been much more than my co-supervisor for this research. He made this work possible by encouraging me regularly to follow a research direction in which I am most interested. Despite his heavy workload, he has taken specific care to maintain the technical expertise. He would always remain in touch with me through mail and would always inspire me to carry on the research activities and would always lend his full support.

I am indebted to Dr. Ajaz Ahmed Mir, Head Department of Electronics and Communication & Dean Academic NIT, Srinagar, for his moral as well as technical support provided during my research work.
Words are inadequate to express my gratitude to Er. Muheet Ahmed Bhat and Er. Majid Zaman Baba, Information officers, University Automation Centre who have been my pillars of strength, without their moral, physical support and encouragement, this work would have remained incomplete. They are contributors to two of the research papers related to this research work.

Words are inadequate to express my gratitude to my colleagues Prof. A. H. Tak, Mr. S M K Quadri, Prof. G. Mohi-ud-Din Bhat and Dr. S. Muheed Ahmed in the University who have been always at my back to support and without their moral support and encouragement, this work would have definitely been affected. My Colleague Miss Nazima Chishti also deserves special thanks as she too has been supportive to the research work and has been contributor to one of the research papers related to this work.

Giving the highest place of honor along with warm feelings, I place on record my heartfelt gratitude as well as reverence to my family members.

Mehraj-ud-Din Dar
