ACKNOWLEDGEMENTS

First and foremost, I thank Almighty Allah for His mercy and benevolence.

A project like this is never the work of just the author. It comes about as a result of a lot of hard work and the collaboration of many people. The name on the cover represents just a small part of the equation. As author, I feel that I am standing on the shoulders of a great many people who don’t get their names on the cover.

Knowing where to start thanking people can be difficult, but with this thesis it’s not. First and foremost, my thanks go to my guide Dr. Fayaz Ahmad, Reader, P. G. Department of Zoology, University of Kashmir, whose supervision and guidance made it possible to complete the set goal. The amount of work and effort he put in was just amazing, and the final product is definitely better, thanks to his input into the project.

I express gratitude from my heart to my co-supervisor Dr. Showkat Ali Zargar, Professor and Head, Department of Gastro-enterology, SK Institute of Medical Sciences, Soura for his encouraging, meritorious guidance and supervision at every step of the present study.

My Thanks are due to Prof R. C. Bhagat, Head, P. G. Department of Zoology, University of Kashmir for providing the required facilities.

I am highly thankful to Prof. M.Z. Chishti, Department of Zoology for his encouragement, valuable suggestions and access to his personal valuable literature.

My special thanks are due to my dearest friend Dr. Hidayatullah Tak, Lecturer, Department of Zoology for his competent advice, enthusiastic support and constant helpfulness during the studies.

My warmest and special thanks are due to my friends especially, Mr. Parvaiz Ahmad Dar and Mr. Zubair Ahmad Dar for the company they provided me during the present study.

I will be failing in my duties, if I don’t acknowledge the Technical & Non-technical staff of the department for their cooperation during this study.

Special thanks are due to J&K State Council for Science & Technology, for providing the Junior Research Fellowship.

There are a whole bunch of folks who I have not mentioned – people who have worked anonymously in the background – I appreciate their valuable contribution to this title.

Last but not least I am indebted to my family for their support and affection that infused the driving force in me.
