I am highly elated and feel immense ecstasy to express my deep sense of gratitude to my respected supervisor Dr. Muni Parveen, Sr. Lecturer, Post-graduate Department of Zoology, University of Kashmir, whose significant and timely patronage, prudent guidance, dynamic suggestions enabled me to make a comprehensive and conclusive stride in my experimental work.

I feel privileged to express gratitude to my Co-supervisor Dr. S. G. Sarwar, Ex-Principal, S. P. College, Srinagar for his scholarly sympathetic guidance, enthusiastic support and encouragement during the whole course of study, besides providing all laboratory and library facilities in the college.

I owe a deep sense of gratitude to Prof. R. C. Bhagat, Head, Department of Zoology/Dean, Faculty of Science, University of Kashmir for providing all research facilities in the department.

I am thankful to all the members of teaching staff of Department of Zoology, University of Kashmir especially Prof. M. Z. Chisti and Dr. Fayaz Ahmad who rendered generous help and encouragement at various stages of this investigation.

I am exceedingly indebted to Prof. A. R. Yousuf, Director, Centre of Research Development and Head, Department of Environmental Sciences, University of Kashmir with whose cooperation the completion of this work was possible.
My special thanks are due to Sajad Hussain Mir, Ph. D. scholar of this department, for his enthusiastic support, helpfulness and constructive criticism during this research work.

I am thankful to all my friends and colleagues especially Ms Rukhsana, Ms Rehana, Mr. Shabir Wani, Mrs. Aabida Ahmad and all staff members of the Zoology Department of S. P. College who proved a great source of inspiration and encouragement in diverse ways during the course of investigation.

I am thankful to all non-teaching members of the Department of Zoology, University of Kashmir for their kind co-operation and help during the tenure of this research work.

My thanks are due to Mr. Javeed Ahmad who showed keen interest in the preparation of this manuscript.

Above all, I am deeply indebted to my revered parents for their immaculate love, affection and blessing for this successful achievement.

I will be failing in my duty if I will not thank to my wife Sakina, my son Shah Zulkarnain and my daughters Khushnum and Hadiya whose painstaking interest and constant inspirations helped me a long way to keep a positive approach to my work.

I affectionately dedicate this thesis to my parents Abba, Boba, Mummy and Daddy.
