The author wishes to express her sincere thanks to Dr UV Mani, Reader, Department of Foods and Nutrition, Faculty of Home Science, M S University of Baroda, for his constant encouragement, suggestions and guidance in carrying out the research work.

The author is extremely grateful to Indian Council of Medical Research for giving financial assistance in the form of junior research fellowship.

The author wishes to thank Dr B K Chakraborty, Professor and Head, Department of Foods and Nutrition, and also to Professor Tara Gopaldas, Dean, Faculty of Home Science, for giving an opportunity to carry out the study.

The author's thanks are due to Dr Nivedita Mehta and Dr Kanta H Patel, Professors of Medical College, Baroda, without whose help the study would not have been feasible.

The author is extremely grateful to Dr Indirani Mani, Assistant Manager, Alembic Chemical Works, Baroda, for her valuable suggestions during the course of the study.
The author wishes to thank the M Sc students – Smruti Pradhan, Shefali Patel, Bharti Prabhu, Sharavati Damle, Jaimini Shah, Kirti Patel, Sushmita Mukherjee and Ph D students – Jolly Parulkar and Mini Doshi – for their help and encouragement during the course of the study.

My sincere thanks to the resident medical doctors of diabetic clinic – Dr Dinesh Thakore, Dr Snehal Patel, and Dr Bhalendu Vaishnav for their help during the course of the study.

The author is grateful to Dr Kirit Vora, Chief Biochemist, Sarabhai Research Foundation for providing the laboratory facilities.

She is highly indebted to all the subjects for their kind cooperation throughout the study period.

Her thanks are also due to Mr Babubhai Pawar for his help and Mr Rangwala for typing the thesis.

Lastly, I would like to express my deep gratitude to my husband, parents and brother, without whose encouragement, patience and help this work would not have been completed.
