**LIST OF TABLES**

Table 2.0 History of Entrepreneurship .................................................................17  
Table 2.1 Approaches in Entrepreneurship ...................................................................19  
Table 2.2 Distinction between Problem Solver Versus Designer Innovator .................51  
Table 2.3 Model of Investment and Exit Option (MVC) .................................................76  
Table 3.0 Research Questions and their Context .........................................................89  
Table 3.1 Details of the Questionnaire (Demand Side) ................................................99  
Table 3.2 Details of the Design of Case Study Structure (Supply Side) .........................101  
Table 3.3 Scheme of Research Methodology ...............................................................107  
Table 4.1 Historical Origin of Micro Venture Capital ..................................................111  
Table 4.2 Comparison of MF, VC, MVIF and MVC ...................................................125  
Table 5.1 Demographic Details of the Innovators Surveyed .......................................130  
Table 5.2 Descriptive Statistics of Age ........................................................................132  
Table 5.3 Details of Mean Income Derivation .............................................................135  
Table 5.4 Details on Experimentation of New Things ...............................................136  
Table 5.5 Details on Source of Innovation ..................................................................136  
Table 5.6 Descriptive Statistics of Source of Innovation ..........................................138  
Table 5.7 Support for Innovation ...............................................................................139  
Table 5.8 Descriptive Statistics on Support for Innovation .......................................140  
Table 5.9 Assistance for Improvement .........................................................................141  
Table 5.10 Rank Analysis of Perception of Innovation .............................................142  
Table 5.11 Type of Innovation ...................................................................................143  
Table 5.12 Significant Outcome on Status of Innovation .........................................143  
Table 5.13 Sources of Success in Innovation ...............................................................144  
Table 5.14 Tabulation of Starting Own Enterprise .....................................................145  
Table 5.15 Comparison of Started and Decided to Start Enterprise ............................145  
Table 5.16 Rank Analysis of Reasons for Enterprise Start Up ...................................146  
Table 5.17 Year of Establishment ..............................................................................147  
Table 5.18 Comparison of Venture Start Up and its Status .......................................148  
Table 5.19 Details of Source and Type of Funding at Seed Stage ................................151  
Table 5.20 Details of Source and Type of Funding at Start Up Stage ...........................152  
Table 5.21 Details of Support Received from GIAN ..................................................153  
Table 5.22 Hindrance to Application of New Ideas ....................................................155  
Table 5.23 Descriptive Statistics on Hindrances to Application of New Ideas ...........156  
Table 5.24 Descriptive Statistics on Reasons of Non Start Up of Enterprise .............157  
Table 5.25 Tabulation of Diffusion of Innovation ......................................................158  
Table 5.26 Comparison of Efforts to do Experiment and Education Qualification .......159  
Table 5.27 Test Statistics for Association between Innovator’s Education and Efforts  
  to Experiment (As per Fisher’s Exact Test) ..............................................................159  
Table 5.28 Comparison of Occupation and Type of Innovation ...............................160  
Table 5.29 Test Statistics for Association between Innovator’s Occupation and  
  Type of Innovation (As per Fisher’s Exact Test) ......................................................160  
Table 5.30 Test Statistic for the Proportion of Fast Receipt of Support (As per  
  Binomial Test) ........................................................................................................162  
Table 5.31 Comparison of Diffusion of Innovation and Enterprise Start Up ..............163  
Table 5.32 Test Statistics for Association between Innovator’s Starting Own  
  Enterprise and Diffusion of Innovation (As per Fisher’s Exact Test) .......................163
Table 5.33 Test Statistics for Association between Diffusion of Innovation and Receipt of Support from GIAN (As per Chi Square Test).........................164
Table 5.34 Symmetric Measures.................................................................164
Table 5.35 Categorization of Innovators.......................................................166
Table 6.0 Sequence of the Case Study........................................................170
Table 6.1.1 Cost Sheet of the Product (Innovative Health Care Chair)..................172
Table 6.1.2 Details of Technology Transfer (Innovative Health Care Chair).............176
Table 6.1.3 Demographic Details of Innovator of Innovative Health Care Chair......180
Table 6.1.4 Date Line of Milestones of the Case (Innovative Health Care Chair)........181
Table 6.2.1 Details on Various Innovations (Innovative Unconventional Energy Device) .................................................................................................183
Table 6.2.2 Cost Sheet of the Products (Innovative Unconventional Energy Device)........186
Table 6.2.3 Details on Need Gap and Market for Innovation (Innovative Unconventional Energy Device) .........................................................................186
Table 6.2.4 Details on Patent of Innovation (Innovative Unconventional Energy Device) .................................................................................................188
Table 6.2.5 Details of Technology Transfer (Innovative Unconventional Energy Device) .................................................................................................191
Table 6.2.6 Demographic Details of Innovator of Innovative Unconventional Energy Device .................................................................................................195
Table 6.2.7 Date Line of Milestones of the Case (Innovative Unconventional Energy Device) .................................................................................................196
Table 6.3.1 Details on Various Innovations (Innovative Earthen Products)..............198
Table 6.3.2 Cost Sheet of the Products (Innovative Earthen Products)...................199
Table 6.3.3 Details on Need Gap and Market for Innovation (Innovative Earthen Products) .................................................................................................200
Table 6.3.4 Demographic Details of Innovator of Innovative Earthen Products........205
Table 6.3.5 Date Line of Milestones of the Case (Innovative Earthen Products)........206
Table 6.4.1 Details on Various Innovations (Innovative Motorcycle Driven Plough and Bicycle Sprayer).......................................................................209
Table 6.4.2 Cost Sheet of the Products (Innovative Motorcycle Driven Plough and Bicycle Sprayer)...............................................................................211
Table 6.4.3 Details on Need Gap and Market for Innovation Innovative Motorcycle Driven Plough and Bicycle Sprayer)...................................................................211
Table 6.4.4 Details on Patent of Innovation (Innovative Motorcycle Driven Plough and Bicycle Sprayer).......................................................................213
Table 6.4.5 Demographic Details of Innovator of Innovative Motorcycle Driven Plough and Bicycle Sprayer.......................................................................218
Table 6.4.6 Date Line of Milestones of the Case (Innovative Motorcycle Driven Plough and Bicycle Sprayer).......................................................................219
Table 6.5.1 Cost Sheet of the Product (Innovative Rotavator)..................................222
Table 6.5.2 Details on Benefits Offered by Innovative Rotavator............................223
Table 6.5.3 Demographic Details of Innovator of Innovative Rotavator..................226
Table 6.5.4 Date Line of Milestones of the Case (Innovative Rotavator).................226
Table 6.6.1 Cost Sheet of the Product (Innovative Mini Diesel Engine)....................229
Table 6.6.2 Demographic Details of Innovator of Innovative Mini Diesel Engine.......234
Table 6.6.3 Date Line of Milestones of the Case (Innovative Mini Diesel Engine)........235
Table 6.7.1 Cost Sheet of the Product (Innovative Motorized Kite String Winder).....238
Table 6.7.2 Details on Need Gap and Market for Innovation (Innovative Motorized Kite String Winder)……………………………………………………………………………238
Table 6.7.3 Details of Fund Support (Innovative Motorized Kite String Winder)…………241
Table 6.7.4 Demographic Details of Innovator of Innovative Motorized Kite String Winder……………………………………………………………………………………………243
Table 6.7.5 Date Line of Milestones of the Case of Innovative Motorized Kite String Winder…………………………………………………………………………………………244
Table 6.8.1 Comprehensive Demographic Details Analysis………………………………246
Table 6.8.2 Comprehensive Product Details Analysis……………………………………248
Table 6.8.3 Comprehensive Support Details Analysis……………………………………250
Table 6.8.4 Comprehensive Innovation Extension Details Analysis………………………252
