Acknowledgement

This thesis arose in part out of years of research that has been done since I came to Department of Microbiology, Government Institute of Science, and Aurangabad. By that time, I had worked with number of people whose contribution in assorted ways to the research and making the thesis deserved special mention. It is pleasure to convey my gratitude to one and all of them in my humble acknowledgement!

First of all by the name of the God, I am very thankful to my parents and my In-laws, who mean the world to me and raised me with love of Science and supported me in my all pursuits. My Elder sister late Ms Ujjwal P. Joshi who taught me to be patient for each and everything that I have craved for even in ups and downs of my life. My parents and my In-laws supported, stood firm and brought me to this level of achievement!

I want to thank my research guide Dr. Mrs Smita M. Dharmadhikari. It has been an honour to be her Ph.D. student. She taught me knowingly and unknowingly, to carry on research and experiments successfully! I appreciate all her contributions of time and ideas to make my Ph.D. experiments productive and effective. Madam has tremendous enthusiasm for research, which was contagious and motivational, even during tough times in the Ph.D. pursuit. I am also thankful for excellent example she has provided as a successful woman and Research Guide.

It is with great pleasure and honour to express my deep sense of gratitude to my teacher Dr. Ravindra R. Deshpande, Director Government Institute of Science, Aurangabad. I would also sincerely thank Dr. S.G. Gupta former HOD
Microbiology, Mr. S.G. Kulkarni HOD Biophysics and Dr. S.A. Satpute and Biotechnology respectively.

I am also thankful to Dr. Ms. Swati A. Peshwe, for her constant encouragement and significant suggestions during this work. I am equally indebt to Dr. Anirudh Petkar, Dr. Ajaykumar G. Jadhav and Dr. Mrs. Jayeshree J. Bhuktar for their assistance and Ms. Sangeeta Jangam for working together.

I was very much fortunate to have the timely assistance of the HOD’s as well as the Faculty Members. I am very much thankful to Dr. Nileema Wahegaonkar, HOD Botany Vasantrao Naik College, Aurangabad (MS) and Xcelris Laboratory for helping me in identification of fungal cultures. Mr. Baburao Dokhane Photo Artist Department of Botany, Dr. Babasaheb Ambedkar Marathwada University, understood my theme of work and created an excellent design for my thesis. I am very much thankful to Mr. Sunil - Himedia Lab and Mr. Aalok Chamnikar - S.D. Fine Chemicals for providing me the necessary chemicals, media and glass wares. I am thankful to Friends Bakery, Aurangabad and Seagram Winery at Nasik who supported me in the Application part of my Research.

I would like to place my sincere thanks to Dr. Mahindra Shirsath, HOD of Physics and Dr. Anita Murgkar Professor in Physics, Ms. Megha Deshmukh, Ms. Harshada Patil and Research students of Physics Department from Dr. Babasaheb Ambedkar Marathwada University who guided me in preparing the Biosensor.

Collective and individual acknowledgements are also owed to my colleagues Mrs. Anjali Kadkikar, Mr Pramod Ghogare, Mirza Zaheer Beg, Mrs. Reshma Jaweria, Mrs. Yogini Ranade, Mrs. Rupali Kulkarni, Mrs. Vaishali Ajane, Mrs. Vaishali Dange, Mr. Vihang Madang for creating a
pleasant atmosphere. Words fail to express my appreciation to my students Chetan, Hrushikeh, Sarika, Rashika and Vinod for their support while working in labroatory. I thank them wholeheartedly.

I would specially thank Mr. Milind Dharmadhikari Sir for supporting me in my research work. My special thanks to Joshi family for their hospitality.

I would thank all Teaching and Non-Teaching Staff Members of Office, Library, Geology, Botany and Biophysics Departments, Institute of Science, Aurangabad and Dr. Babasaheb Ambedkar Marathwada University, Aurangabad for helping me in every possible way.

My better half Sameer, my kids - Sahil and Harsha deserves special mention as they helped me in this thesis.

Last but not the least I would thank each and everybody who was important to the stressful realisation of thesis, as well as express my apology that I could not mention the names personally one by one.

Sincerely,

Gothoskar Vandana S.
