Acknowledgement

It is a great pleasure for me to acknowledge the assistance and contributions of many people in making this thesis a success.

First and foremost, I would like to express sincere thanks to my guide, Dr. G. D. Khedkar, for his assistance, ideas, and feedback during the process in doing this Ph.D. I am very much thankful not only for his tremendous academic support, but also for giving me so many wonderful opportunities during the course of Ph.D. work. He offered me so much advice, patiently supervised me and always guiding me right direction. I have learned lot of things from him and without his guidance and support; I could not have finished my Ph.D. work successfully.

Secondly, it is a pleasure to express my thanks to Prof. Dr. Y. K. Khillare, Head of Department of Zoology, for providing a facility for my research work in the department and also thankful to former Director in charge of Paul Hebert Centre for DNA Barcoding and Biodiversity Studies and Prof. of Department of Zoology Dr. S. V. Nikam for constant faith in my lab work and her valuable advice during my tenure of Ph.D.
It is my pleasure to express my special thanks to the Director of Paul Hebert Centre for DNA Barcoding and Biodiversity Studies for providing me all resource, well equipped lab and aquaculture facility for my research work.

I take this opportunity to sincerely acknowledge the government funding agencies, Indian Council of Agriculture Research, National Agriculture Innovative Project (ICAR NAIP), Ministry of Food Processing Industry (MOFPI) and Department of Biotechnology (DBT) that have provided funds for developing research facilities at the laboratory. Also, I would like to thanks University Grants Commission (UGC) and Department of Biotechnology, New Delhi for providing financial assistance in the form of Research Fellowship. With their financial help and support, it would have been possible to pursue my Ph.D. work successfully.

I am very much thankful to Mr. Sumit Choudhary and Mr. Dhiraj Fatpure for helping me to collect *C. batrachus* populations from different parts of the India. I would like to give my special thanks to Mr. Rahul Jamdade for sharing and discussing with me about bioinformatics and software execution. His encouragement and help make me confident to overcome all difficulties I encounter. I am also thankful to my colleagues Dr. Sandeep Rathod and Dr. Vikas Kalyankar for giving me suggestions and support during initial phase of Ph.D. work. I am also thankful to Dr. Sachin Chavan and Dr. Trupti Khedkar for their support and encouragement.
It’s my a pleasure to express my thanks to all of my colleagues and friends from Paul Hebert Centre for DNA Barcoding and Biodiversity Studies, Mr. Shivaji Ghodke, Rashmi Sharma, Dinesh Nalage, Chandrakant Jadhav, Vipin Hiremath, Balasaheb Ughade, Mahesh Shingare, Anil Sarkate, Amol Kalyankar, Vetan Zambare, Sajid Khan, Yogesh Bidwe, Dhairyasheel Vetal, Shil Abhyankar, Raituja Hange, Chetan Ahire, Ganesh Korhale and Rajesh Dhakne for help and suggestions. I deeply appreciate their helpfulness and willingness.

I would like to thanks my friend Miss. Gunwati Arak for standing with me during both enjoyable and painful moments and also thankful to my entire friend from Department of Zoology who supported in many ways.

Lastly, I wish to express my sincere gratitude to my family for their encouragement, patience and moral support.

Pursuing Ph.D. is memorable experience in my whole life. This experience will help me for shaping my future. It happened because of encouragement, trust and so many people’s kind help. This Ph.D. work is dedicated to only teamwork. Though it will not enough to express my thanks to all people in words, still I would like to many thanks to one and all who helped me directly and indirectly.

Anita Tiknaik
