ACKNOWLEDGEMENTS

It is a matter of immense pleasure and proud privilege for me to express my heartfelt gratitude to all those who have helped me in diverse ways.

The deep gratitude that I feel for my supervisor, Prof. K. C. Patel, cannot be expressed in mere words. I thank him immensely for providing me with this opportunity to undertake my research work and all his encouragement during the same. I am also thankful to him for providing a friendly working environment, together with constructive criticism and advice whenever it was needed. He has been a friend, philosopher and a guide to me.

I would like to express my sincerest gratitude to Prof. I. L. Kothari (ex-Head) and Prof. Datta Madamwar (Head) for extending all the facilities of the department towards my Ph.D. work.

My due thanks go to Dr. Ujjval Trivedi, who helped me, immensely during the course of enzyme purification and Enzymology work. His constructive criticism throughout my Ph.D. work definitely brought out the best in me.

I take this opportunity to thank Dr. R. B. Subramanian, who introduced me to the Department of Biosciences and Lab 312.

I am grateful to Sardar Patel University for giving me permission to work at the Academy of Sciences, Prague, Czech Republic, on UNESCO-ROSTE fellowship, as a part of my research program.

My sincere thanks go to Prof. Vaclav Sasek and Dr. Cenek Novotny, (Institute of Microbiology, Academy of Sciences of the Czech Republic, Prague.) for accepting me in their laboratory and giving me the benefits of the infrastructure of the institute, their knowledge and valuable advises during the tenure of my UNESCO fellowship.
I would also like to thank Prof. Datta Madamwar and his research students for providing me with their laboratory facilities without any hesitation.

My most sincere thanks goes to my colleagues Milind Patel, Nehal Thakor, Bina Trivedi, Kishor Chauhan and Hasit Dangi, for their co-operation and help rendered during the course of my study. My sincerest and heartfelt gratitude to Aparna Vaka who was a great friend and support to me through my study and stay in Vidyanagar.

I also take this opportunity to express my gratitude to the Dr. Nataraj, Mr. Nitin and Dr. Hitesh, for their technical help. My thanks are also due to Mr. Rashesh K. Parikh for his timely help with my thesis work.

I would be failing in my duties if do not thank the office staff of Department of Biosciences, for their best co-operation and help rendered to me.

I am what I am today because of my parents, who have borne a great deal of exertion to make my studies primary, comfortable and most enjoyable. It is with their constant encouragement and blessings that I have seen this day. I acknowledge their contribution to my life and achievement. My brother, Gautham, has been the light through trying times. I thank him for showing confidence in me and being my pillar of support at all times. Words cannot express my gratitude to Arjun, my best friend and companion, without whose constant cheer, motivation and support both at good times and bad, I would not have been able to finish this project that I had undertaken.

In closing I take this opportunity to send my heartfelt thanks to all those who have directly or indirectly supported me over the last several years.
