ACKNOWLEDGEMENT

The author takes this opportunity, to express his inherent and utmost gratitude to his research supervisor, Dr. A. ELANGOVAN, for his valuable guidance, fertile ideas, unstinted co-operation and keen interest shown throughout this work.

He is deeply indebted to Dr. C. GANAPATHY, Professor, I.I.T., Madras - 36, and Dr. V.G. PANDARINATHAN, Head of Civil Engineering Department, C.I.T., Coimbatore - 14 members of the doctoral committee for their timely suggestions at various stages.

His heartfelt thanks are also due to Dr. P. PURUSHOTHAMAN, Dean of Engineering (P.G.) and Dr. A. R. SANTHAKUMAR, Head of Structures Division, College of Engineering for all the facilities made available to him to carryout the research.

His thanks are due to M/s. P. AMARAR VENKATACHALAM, C. UMARANI, G. KOPPERUNDEVI, JAYASREE RAMANUJAN, SHIRLEY BENJAMIN, B. POONGUZHALI, N. SUBRAMANIAN and SANJAYA KUMAR POOJARI for their kind help.

The author also appreciates the assistance of all the Teaching and Non-Teaching Staff of the Structures Division, at one stage or other.
The author is pleased to acknowledge, Prof. M. GURUSWAMY, Principal, C.I.T., Coimbatore 14, for deputing him under QIP.

The help and assistance rendered at times of distress by his younger brother Thiru. K. RAJA and his family friends Tmt. & Thiru. S. THANGARAJU and Tmt. & Thiru. E.B. SEKAR are gratefully acknowledged.

The whole-hearted support extended by his beloved parents Tmt. K. PAZHANIAMMAL & Thiru K. P. KUPPUSAMY, the forebearance of his wife Dr. S. THENMOZHI and his son Master Neelamegam, when he was away during this assignment are beyond words.
