ACKNOWLEDGEMENTS

It gives me great pleasure and privilege to record here my deep sense of gratitude and thanks to my guiding Professor S. R. Patel, Head, Department of Statistics, Sardar Patel University, Vallabh Vidyanagar for his expert advise, profuse interest and perpetual inspiration throughout the course of research and immense help in writing this Thesis.

I am grateful to the authorities of Gujarat Agricultural University, Sardar Krushinagar for giving me the permission to get myself registered for Ph.D. degree in Statistics at Sardar Patel University, Vallabh Vidyanagar.

I would fail in my duty if I do not thank to Dr. S. M. Shah, Retired Professor and Head, Department of Statistics, Sardar Patel University for his help at one or the other stage in this investigation.

I would like to thank all the staff members of the Department of Statistics for their help in my research work.

I would also thank to the authorities for permitting me to use the computer facilities.

My thanks are also to Dr. A. B. Patel, Lecturer in Mathematics for his help in computer work and to
Shri A. K. Patel, typist for his help in typing work.

How can I forget my wife Smt. Virbala; son Pinal and daughter Khyati who tolerated my long absence from home when I was engaged in this research work.

My thanks are also to Shri Becharkaka, The President, Moti Sattavis Leva Patidar Samaj and Shri Umedkaka, The Rector as well as Shri Thakorbai Asstt. Rector, Moti Sattavis Leva Patidar Hostel for providing necessary facilities during my stay in the hostel.
