ACKNOWLEDGEMENTS

‘Thanks’ is a small word with tall meaning.

I have always believed in a Zen saying, ‘The teacher appears when the student is ready’. Literally hundreds of people have taught me something that added ‘value’ and made this research effort worthwhile, but there are few I would like to thank in particular.

I take this opportunity to express my deep and sincere gratitude to my research guide Dr. Vaishali Pradhan for her valuable guidance, inspiration and encouragement in carrying out my doctoral studies. It is because of her support that I could synchronize the efforts in covering the manifold features of the research work undertaken.

I would like to extend my sincere gratitude to Dr. J.C. Sharma for statistic help and to the Principal of various colleges for co-operating in collecting the required data from their respective colleges.

I also would like to record the support and constant encouragement that I have received from the Madam Dr. Vasudha Kamat, the Vice-Chancellor and Madam Dr. Kumudavalli, the Registrar of S.N.D.T. Women’s University. I thank my Principal and my colleagues at P.V. Polytechnic, S.N.D.T. Women’s University, MUMBAI.

I thank the Librarian and the library Staff of S.N.D.T. Women’s University to name few Ms. Kashmira, Ms. Sangeeta Joshi, Ms. Brinda
