ACKNOWLEDGEMENT

A doctoral thesis is a result of numerous direct and indirect contributions over an extended period of time. I shall do my best to acknowledge them here. First and foremost, praises and gratitude to the God, the Almighty, for providing me strength throughout my research work to complete the research successfully.

I would like to express my heartfelt gratitude to my guide, Dr. Vinayak H. Patel, who has been continuous source of encouragement and efficient guidance. His meticulous and tireless consultation and scholarly advices has helped me not only to do this work but also grow professionally. I shall remain indebted for having the opportunity and privilege of knowing and working with a mentor like him.

I would like to express my sincere thanks to Honorable Vice Chancellor Dr. Harish Padh and I/c Registrar O.S.D. Dr. Mohanbhai Patel for their kind support and motivation. I would like to acknowledge Sardar Patel University for funding the seed grant project which was also a part of this research work.

I would like to express my gratitude towards the management of Anand People’s Medicare Society for their cooperation.

Within the P.G. Department of Home Science, I am indebted to all the faculty members and administrative staff for their timely help. I would like to thank Dr. Rema Subhash and Dr. Namrita Kola for their constant encouragement, Dr. Neeta Dave for her vital insights into the field. I would like to convey my heartfelt gratitude to my dear friend, Dr. Jisha Elias for her persistent motivation, inspiration and ever ready zeal to help at
every stage. I am also thankful to Rajubhai, Jignaben, Ravinbhai, Hemagini and Shitalben for their help and support.

I extend my thankfulness to Deputy Registrar Shri Tushar Majmudar, Shri Nilesh Patel and Assistant Registrar Shri Mayank Bhatt for their kind cooperation. I extend my special thanks to Shri Bindubhai Bhatt and other staff of Academic, Examination and Establishment sections of Sardar Patel University for their administrative support.

I am grateful to Dr. Paresh Shah, Dr. Sushilkumar Singh and Dr. A.R. Patel for their support and guidance in pesticide residue analysis. I am especially thankful to organic farmers Shri Sarvadaman Patel, Dr. Dinesh Patel, Shri Devesh Patel, Shri Kapilbhai, Shri Francisbhai for providing guidance and proper direction for this work. I am thankful to all the farmers and consumer respondents, storekeepers and sensory panel members without whose help, this doctoral work would not have been possible. I am deeply thankful to Dr. Gaurang Rami for his valuable guidance related to statistical analysis. My special thanks are due to Dr. Piyush Joshi and Shabnam Lohani for their valuable insights in academic writing. A special thanks to Dr. Rajendrasinh Jadeja for his words of motivation and blessings.

Most importantly, I would like to thank the origin of my inspiration and the driving force of my life, my dear father Shri. N.N. Roghelia, who constantly reminded and encouraged me to accomplish my doctoral work. I would love to acknowledge two main pillars of my life, my dear mother-in-law (mum) Shaliniben and my idol (mummy) Arunaben, whose continuous support and blessings have made this work successful.
My heartfelt appreciation is to my beloved husband Sunil for being the strength and driving force, in the fulfilment of this endeavor. I shall also express my love to my adorable son, Shalin for refreshing me with his curious questions about my Ph.D. and give me the joy I needed all through. I am deeply thankful to my family members especially to Kunal, Tarang, Falak and Vedu for their help and support whenever I need them. I am thankful to all the members in my in-laws family for their kind support and motivation.

I would like to acknowledge Bhavana Chauhan (Bhavanabhi), Shazia Sharma, Vijaya Agarwal, Dr. Anjali Bhatt for being supportive during and beyond research work. I am very much thankful to all my friends especially Minal, Dhwanika, Trupti, Gayatridi, Bijal and Tejshri for their valuable and timely support. I am also thankful to Minal and Nehal for their help.

Besides, I must also thank my family friends Surendrabhai, Juhika, Kiranbhai, Sarika and little Dishan for their unconditional help and love. I am also greatful to my school friend Dr.Kartik Shukla and Dhruti for their constant encouragement.

Finally, I would like to thank everybody who has directly or indirectly involved in completion of this research work.

Viraj Roghelia
