ACKNOWLEDGEMENTS

I deem it a rare opportunity to pronounce my deep sense of gratitude to the tutelary Dr. K.N. Amruthesh, Asst. Professor (Senior Grade) & Principal Investigator for his exemplary, which enabled my research efforts to come in shape with meaningful conclusions. His concern and endearing demeanor always encouraged my enthusiasm in research, which otherwise bound to be lackadaisical. His keen interest in my progress would have been unrequited if I had not heed his remarks of excellence.

I wish to express my sincere gratitude to Professor G.R. Janardhana, Chairman, Department of Studies in Botany, University of Mysore for providing the facilities.

I consider this an occasion to extend my high regards to Professor K.A. Raveesha, Chairman, Board of Studies in Botany, for his suggestions and co-operation during my research career.

I take this opportunity to record my profuse gratitude to Professor M.S. Sudarshana, Professor Shobha Jagannath and Professor S. Leelavathi in the Department for their timely suggestions, constant support and encouragements of inestimable value.

My thanks are also due to Mr. K.M. Jayaramaiah, Dr. M.S. Sharada, Dr. Rajkumar H. Garampalli and Dr. M.S. Nalini for their help and cooperation during my stay in the Department.

I am indebted to Professor H. Shekar Shetty, Principal Investigator, ICAR-AICPMIP, Mysore Centre, Department of Studies in Biotechnology, University of Mysore, for the interest he has shown in shaping my research work, and also timely suggestions, providing the pearl millet downy mildew sick plot for conducting experiments which were of great help for me during the course of this investigation.

My special thanks are due to Professor G.R. Shivamurthy, Professor T.C. Shivashankara Murthy and Professor S.P. Hosmani, Department of Studies in Botany, and Professor H.S. Prakash and Professor S.R. Niranjana, Department of Studies in Biotechnology, University of Mysore, for their kind support and motivation throughout my research.
