ACKNOWLEDGEMENT

At the dusk of this work, when I sit to pen down my gratitude, my vocabulary fails me, yet at the same time it is a profound privilege in itself. Pursuing a Ph.D. project is a both painful and enjoyable experience. It’s just like climbing a high peak, step by step, accompanied with bitterness, hardship, frustration, encouragement and trust and with so many people’s kind help. When I found myself at the top enjoying the beautiful scenery, I realized that it was, in fact, teamwork that got me there. Though it will not be enough to express my gratitude in words to all those people who helped me, I would still like to give my many, many thanks to all these people. Now it is a defining moment in my history to acknowledge all those who stood for nothing less than the acceptable standard.

In the first place sincerely acknowledge with a deep sense of heartfelt gratitude towards my supervisor Professor Gauri Shankar, S.O.S. in Statistics, Pt. Ravishankar Shukla University, Raipur (C.G.) for his valuable and faithful guidance with constant encouragement in my research work. In addition, he is accessible and willing to help his students with their research. As a result, research life became smooth and rewarding for me. It was only due to his cheerful enthusiasm and ever-friendly nature that I was able to complete my research work in a respectable manner.

I take this opportunity to bestow flowers of regards, gratitude and indebtedness at the feet of my revered, learned and affectionate guide, Dr. Ravi R. Saxena, Associate Professor, Department of Statistics, Mathematics and Computer Science, who inspite of his onerous duties, gave excellent
guidance, valuable suggestions and constant dynamic supervision to this work.

My heartfelt thanks are due to my family members brothers, sisters, My Father - in - law (Er. A.K. Verma), Mother - in - law, Kirtiraj, Akanksha, abhipray, archit and fourth coming kid mungoo because no work can be completed without
the moral support and sympathetic adjustment of Relatives and friends.

Last but definitely not least, this work would not have been achieved without my parents. My parents deserve special mention for their inseparable support and prayers. My father, in the first place is the person who put the fundament my learning character, showing me the joy of intellectual pursuit ever since I was a child. My mother is the one who sincerely raised me with her caring and gently love. They have always supported me in everyway I have chosen in life. I would like to thank my well wishers who are my sisters, brothers, cousins and all relatives for their unflagging love and support throughout my life.

I would like to express special thanks to my in-laws. They helped me to concentrate on my study and supported mentally during the course of this work. Without their encouragement this study would not have been completed. Finally, I would like to thank the almighty GOD! Who has given me enough strength to finish this work.
