Acknowledgment

I would like to record my gratitude to Dr. M. B. Dhakne, Professor and Head, Department of Mathematics, Dr. Babasaheb Ambedkar Marathwada University Aurangabad, without his help I would not have been able to start my career as a research student. He has introduced me to the area of mathematical biology and gave me continuous support in learning and exploring this area. This research work would not have been possible without his supervision, advice and guidance from the very early stage of this research work. Inspite of his busy schedule he always gave continuous input and advice during my hard times. I am extremely grateful to him for his constant and ungrudging encouragement, valuable suggestions and ingenious ideas. The way Prof. M. B. Dhakne made me think and work has an everlasting impact on my career and life.

Especially my thanks are due to Dr. S. D. Kendre, Dr. H.L. Tidke, Mr. P. M. Dhakane, Mr. P. N. Kamble, Mr. K. D. Kucche and Ms. R. S. Jain for their constant encouragement to me all along. I owe my thanks to Mr. B. S. Reddy who made my stay at central university of Hyderabad during my library work.

I also extend my sincere thanks to all the teachers of Department of Mathematics, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad.

I would like to thank all my research brethren as well as my friends, all of whom I cannot mention by name due to paucity of space, for their help and encouragement. I just do not find words to express my thanks to them.

Above all, I feel very much obliged to my parents and relatives for their co-operation.

Ashok B. Munde
