ACKNOWLEDGEMENTS

I am extremely grateful to Dr.K.N.Balasubramanian who was the supervisor for this research till the submission of the synopsis, without whose supervision, innovative suggestions and encouragement, this research would not have been successfully completed. Prof. K.N.Balasubramanian was kind enough to continue his guidance on an informal basis during writing part of this research, even after he left the institute.

Also, I am extremely grateful to Dr.M.S.Selvam who was the supervisor during writing part of this research work, without whose supervision, innovative suggestions and encouragement in the final stage, this thesis would not have been successfully completed.

I acknowledge with sincere thanks the comments and advice from Dr.R.Rajagopalan and Prof.A.M.Srinivasan, members of Doctoral Committee during this research.

I very much grateful to Dr.N.Sambandam for his valuable comments and suggestions during this research.

I would like to express my sincere thanks to my colleagues in the Industrial Engineering Division, specially to Messers K.Krishnaiah, and P.Shahabudeen who had readily helped me during different phases of this research.

My thanks are due to Mr.A.Elango, research scholar, for his suggestions and help during this research.
I wish to express my thanks to the management of M/S Lucas TVS, Madras for providing me necessary data for this research from their industry.

I am extremely grateful to the Anna University for providing me the financial assistance towards reprints of the journal articles and preparation of the final report.

Lastly my thanks are due to M/S Instant Printers, Madras for typing the final report.
