ACKNOWLEDGMENT

The author is extremely indebted to his supervisor Prof. P. RAMASAMY who introduced him to the field of Crystal Growth research in general and to the III-V semiconducting compounds and crystal growth instrumentation in particular. His stimulating guidance, scientific proficiency, valuable comments, and ever optimistic approach have proved invaluable to work towards this challenging field of research. The author is very grateful to him for all the helps received in both academic and non-academic matters.

The author expresses his deep feelings of gratitude to Dr. J. KUMAR, Dr. S. ANBUKUMAR and Dr. R. DHANASEKARAN for the scholarly advice and critical comments during this work. The author also thanks Dr. C. SUBRAMANIAN for his support and encouragement.

The author expresses his deep sense of gratitude to his research colleagues Mr. J. AROKIARAJ, Mr. S. ARULKUMARAN, Dr. K. BALAKRISHNAN, Mr. K. SANKARANARAYANAN and Mr. M. UDhayashankar for their help and cooperation. The author thanks his scientific collaborators, Dr. A. SUBHRAMANYAM, IIT, Madras, Dr. L. DURAI, Dr. M. THIRUMAVALAVAN, Dr. Ishwar Chandra Mathur, Dr. (Mrs) R. Gulati, SSPL New Delhi, Dr. FORNARI, MASPEC, Italy, and Prof. TONGNIAN SUN, HRSI, China.

The author wholeheartedly thanks his father, mother, brother, sisters and wife, who have been behind the advancement of his studies, for having tolerated patiently his prolonged research work.
