Acknowledgment

Any accomplished work is an effort of collective deeds of many peoples and this work is not an exception to this. I am greatly indebted to Dr. S.G. Gupta, M.Sc., Ph.D. (Pune), Director, Government Institute of Forensic Science, Aurangabad for his continued support throughout the tenure of this research. I feel proud to have worked under the guidance of a microbiologist of his caliber, with an endless generosity and indefatigable guidance and enriched my knowledge and understanding of the subject. I owe a deep depth of my gratitude to my ingenious, awesome martinet and non puerile research guide, under whose adroit guidance this work culminated in success and he always infused ingenuity in my brain.

I would also like to thank Director, Government Institute of Science, Aurangabad, Mr. Ajay Jadhav Assistant Professor Department of Microbiology and other staff members of the department of Microbiology, for their help and support during the work.

I profoundly thank my research colleagues Pramod Ghogre, Syed Rizwan Ali and Yash Gurusahani for their timely and valuable support during the research.

I take this opportunity to express my deepest sense of gratitude to Late. Dr. Khaja Mohazzibuddin Khalid, Ex-Principal, Milliya Arts and Science College Beed, for his constant encouragement for research, may his soul rest in peace.

I am greatly indebted to Dr. Mohammed Ilyas Fazil, Principal, Milliya Arts and Science College Beed, for his ever inspiring and encouraging attitude, throughout my research. He is really a teacher worth praising. I would also like to thank Mr. Ahmed Bin Abood, Secretary, Anjumane Ishhat e Taleem. Beed, for his generosity and extending his support during the work. I would also like to express my thanks to the Dr. Syed H.K., Vice Principal, Milliya College, for his encouragement and support during the research.

My sincerest thanks to Dr. Mohammed Shaker, Head, Department of Microbiology, Ks.K, College, Beed, for his support during the work. He helped in every manner when I needed help.

I owe a great debt of gratitude to my colleague and friend Dr. Sairy Abdullah, Department of Zoology, Milliya College Beed, who instilled a love for education and joy of
seeking knowledge. I will be highly grateful for his precious suggestion, constant encouragement, patience and infinite support and encouragement during the work.

I am thankful to Dr. Mussaddiq, Head, department of Microbiology, Shivaji College, Akola, for his help in search and collection of literature for this research, his help greatly eased this research.

I am warmly obliged to Dr. Seema Hashmi, Head, Department of Microbiology, Milliya College Beed, for her support, Dr. Syed Shaukat Hussaini, Head, Department of Physics, for his encouragement and suggestions for the work and all other staff members, who gave their valuable suggestions. A special thanks to Prof. Abdul Anees, Head, Department of English for all his encouragement.

My sincere thanks to Mrs. Priya Gupta, for her hospitality during the course of this research work.

I take this opportunity to express my thanks to my friends, Zubair, Sageer, Shahbaz, Sunil Raut for their help and support, whenever required.

I also thank all my students at Milliya College for their patience and support during the work, especially at the final stages.

I am wordless to express my gratitude to my mother, brother (Mohammed Aqueel), my sisters and brother-in-laws specially Dr. (Mrs.) Mohammed Zaker for their constant encouragement and sacrifices, for my achievements.

Very special thanks to my wife Neelofer Anjum, for her inspiration, moral support and bearing all the inconvenience caused during the present research work.

Finally, I must thank Abba (my Late father) for his upbringing, inspirations and teachings which he gave to me, I owe the entire research to him, may his soul rest in heavens.

Aurangabad
